If it shall be determined to try him for treason the proceedings will of course take place before a civil tribunal, but from present indications it is more probable that he will be tried before a Military Commission, as the leader and instigator of the conspirary, for it is said in prominent quarters that there is newly discovered evidence in this connection against him.

10 ADVERTISERS,-The circulation of the Philadelphia AGE, which is steadily and rapidly growing, makes it at least as valuable a medium for advertising as any We earnestly advise all who have much other commercial and business newspaper washing to do, with all intelligent persons in Philadelphia; and the fact that it reachwho may have any, to buy this Wringer es a large class of conservative readers, scattered over a vast extent of country, who do not take any other Philadelphia paper, commends it, to an extraordinary degree, as a means of communicating with the pub-lic not possessed by any other Journal published in this city.

The AGE is now established on a sure

and permarent foundation. The publishers could easily fill their columns with the unsought and most liberal commendations of the press throughout the country; but they prefer that it should stand altogether upon claims to public confidence wellknown and established. It will be, as heretofore, the supporter of the National, Conservative, Democratic, Union Principles, opposed alike to radicalism and fanaticism in every form, and devoted to the maintenance of Good Government, Law, and Order. The revival of all the business relations of the country, consequent upon the suppression of the rebellion and the restoration of peace, will enable the publishers to make a number of improvements n the various departments of this Journal, and they, therefore, respectfully solicit the support of all who wish to secure one of the best Commercial, Literary, Business, and Family newspapers in the country.
