The Democracy of the North will commit a fatal error if they accept the result of he late Presidential election as an indication from the hand of Destiny to relax their political action until the opening o

the next campaign. The future welfare o the republic depends upon the politica zeal and activity of the Democracy during the year 1865.

The small majority of the popular votethat elected the Black Republican candidates, considered in view of the extraordinary resources of the Administration for corruption and compulsion, attests that the power of the Democracy, on a fair field, is

equal to the vindication of Democratic principles. There is one feature in the result of the Presidential election that goes far to re concile the patriot to the hard fate of hi country under four years more of Black Republican misrale. The baleful meteor

that lingered in grief while in our political atmosphere has vanished for ever. War Democracy has fulfilled its mission of disorganization, and like any other pestilence will be remembered only for the evil it has done.

We have no excuses to invent for modifications of sentiment, nor have we to plead "expediency" in palliation of incoasistency. Our path has been straight forward. Our columns are before the people, not a line in them that we would cancel nor sentiment we would recall, not an assertion

that requires an explanation, not a word that we regret to have uttered, not a principle advocated that we have not stood by and will stand by to the last. Such has been our past record, so will be our inture. We do not, however, ask the Democracy

to sustain us in our mission as a reward for the service we have dong, but in cour sideration of the good work that we propose to do.
