HONOR TO OUR WORKHEN.

BY H CLAY PREUSS.

Whom small we call our heroes, To whom our praises sing ? The pumpered child of fortune, The titled lord or king ? They live by others labor, Pake all and nothing give ; The noblest types of manhood Are they who work to live. Then honor to our workmen, Our hardy sons of toil-The heroes of the workshop, And monarchs of the soil !

Who spans the earth with Iron, And rears the palace dome ? Who creates for the rich man The comfous of his home ? It is the patient toiler-All honor to him then ! The true wealth of a nation Is in her working men.

For many barren ages Eamb bid her treasures deep; And all her giant forces Seemed bound as in a sleep; Then Labor's "anvil-chorus" Broke on the startled air. And lo! the earth in rapture Laid all her riches bare !

Tie toil that over nature Gives man his proud control : And purifies and ballows The tem; les of his soul It scatters foul diseases, With all their chastly train. Puts iron in the mascie - And crystal in the brain !

The Grand, Almighty Builder, " Who fashioned out the earth, Hath stamped his seal of honor On Labor from her birth. In every angel flower, That blossoms from the sod, Behold the master touches, The handswork of God !

Then hopor to our workmen, Our hardy sons of toil-The ternes of the workshop, And monarchs of the soil.

Mr. Johnson was nominated to the Vice Presidency as a Tennessean, was elected as a Tennessean, succeeded to the Chief Magistracy as a Tennessean, and, as a Tennessean fulfills to-day the functions of the Executive position. If the Radicals deny the State existence of Tennessee, they deny the right of Mr. Johnson to the office of President of the United States. Judge Busteed and the United States Author-

In the United States Circuit Court, held at Mobile, Dec. 1, Judge Busteed made the following remarks:

I had hoped to have been able at this time to congratulate the citizens of Alabama upon the resumption of civil authority and the re-establishment of courts of judicaturs. In this I have been unexpectedly disapter have recently occurred in the Southern district of this State; which leaves it doubtful whether the government intends that this people shall, for the present, be entitled to the privileges and subject to the power of civil role. Notwithstanding the appointment of a provisional Governor for this State, and the President's direction to me to hold the Federal courts conformably to the enactments of Congress, and in the face of his official proclamation declaring the restoration of national peace, the military officer in command in Alabama has, within a lew days past, refused to obey the processes issued by a court of the United States, and justifies his refusal upon the ground of instructions from the Chief Executive.

In the case in which the question arose, I decided in effect, that the citizen had been restored to the status which belongs to him of right in times of peace, and that as matters now stand, it is the office of the military establishment to aid, when required, the civil magistracy in the discharge of their functions. I am still of this opinion. But it is plain that the civil power and the milison, and if they thought that his authority tary control cannot coexist in the same sphere, and over the same subjects of jurisof its legitimacy, they are reckless enough diction. Practical Joking.

Joe and Commodore Rogers, brother blacksmiths in Whitewater, Wisconsin. have a great reputation for being practical jokers. Last summer Joe bought an old fashioned dash churn, for the purpose of manufacturing their own butter, and as the Commodore was a widower, and lived with Joe, all such work naturally fell to him -One day, after supper, the first churning was got ready, and the Commodore was invited

"Hold on," said he, "till I go down town and get some terbacker"

He went, and while gone Joe did the churning, took out the butter, and left the buttermilk in the churn.

The Commodore returned, looked at the churn, took off his coat, and said, "Well, old churn, its you and I, and here's for yel' and commenced his labor. > SPECULATORS AND HIGH PRICES .- There is no possible excuse for present prices, and they can be accounted for only upon the ground that speculators are controlling the markets. As an illustration, take domestic cotton goods. The price of cotton is nearly one-half lower than it was when gold was at the highest quotation, and other expenses are certainly no heavier than then; yet consumers have to pay nearly the old figure for their goods. Cotton factors, by reason of the high prices brought about by the speculators, are reaping a rich harvest of profit. A Newburyport paper states that a mill at that-place declared a dividend last week of twenty-five per cent., and that the mill has cleared half a million dollars in the last four years, although the whole concern cost only half that amount. There is no reason why this should be an exceptional case, and the inference is, that the mills of New Eng. land are now rolling up immense profits at the expense of consumers.
