The educational interest being one of great importance, and one which should be continually kept before the people, we consider it appropriate and necessary, that a portion of our paper should be devoted to the publication of matters relating to Common Schools and the Common School Laws of Pennsylvania. THE REVEREND W. H. CAMPBELL, D. D. President of Rutgers College, addressed the graduating class of the New Jersey State Normal School, upon the Essentials for a Successful Feacher, in appropriate "terms," any further, then that the reports and statisfrom whose address we clip the following remarks upon one of these essentials:

A THIRST FOR ENOWLEDGE. Appreciating the end of his own being, the teacher himself wishes to know, that he may do. It is not merely knowledge for itself, for the mere sake of knowing, which which is by no means an elevated feeling. Babel has cleft the earth, and were that the end of his acquisition, a day laborer, with a very moderate share of knowledge of his mother tongue, but who took the well-being plans and ends, would be not only a better man in the moral aspects of the question but also a better educated man, in the true ceived; and in nearly all of them measures sense of the word education. Nor is the knowledge sought because, by the acquisition, its possessor can become rich and are essential to their confort, protection, powerful. This is mere selfishness, which is a base and sordid feeling; and wherever In Florida and Texas the people are ma- it gets the mastery it renders a man so consciously base that, self-condemned, he excludes himself, as unworthy, from the society and converse of men of eminent virtue and philanthropy. But the thirst for knowledge, which the good can approve, is his who, while he does not ignore self, or seek to be better than our Lord required, since he commands us to love our neighbor as ourself, nevertheless wishes to know much in order that he may do more, which will be beneficial unto others.

In a word, then, the successful teacher must first have become a successful scholar. He must, in some way or other, have learned the lesson, and learned it thoroughly, that a man is not his own having no relations or affinities to others. He is placed here to be rain and sunshine, fresh air and fragrance, food and flowers, any thing and every thing that is good and beautiful, consolatory and strengthening, reforming and purifying, unto every one that needs his help and unto whom he is able to render it. Let this big thought come down into the soul (and what contractibility of heart must have been overcome before this thought could find room in these shriveled, shraken souls of ours)-let this big thought, I say, come down into the soul, and it converts the man at once into a most diligent learner. What must I do, and how can my duty be best done? are now the life-questions which are ever being asked, and unto which ready answers are also ever vouchsafed : for here he who asks receives, and he who seeks finds. School Law Questions.

Question-How many days constitute a school month ?

Answer .- The act of April 17th, 1865, declares. "That twenty-two days shall be held to be a school month, and that two Saturdays in each month, as the proper board shall designate, which two Saturdays shall be held to be a part of the school month. may, at the discretion, and by an affirmative vote of a majority of all the members of the board of directors, or controllers, be the United States are in possession of every endeavor to make it interesting and instruc- appropriated to institutes for the improvement of the teachers of the said district :-Provided, That in districts, in which the schools are, or shall be, kept open, and in operation, the maximum term now allowed by law, and the teachers employed by the year, the loregoing clause as to the number of days in the school month, shall not apply tics of the schools shall be kept in accordance therewith, and that district institutes may be held as thereby directed; all acts and Miss Louisa Albertson, of Greenwood or parts of acts, inconsistent herewith, be township, all of Columbia county. and are hereby repealed."

By this act, the holding of district institutes upon two Saturdays is left discretionary with the board of directors. If a majority of the board, by resolutions at a regular or stated meeting, declare in favor of district institutes and also, fix the two Saturdays of each month noon which they shall be held, then these two Saturdays are to be considered as part of the twenty-two days.

In districts where no institutes are held the full twenty-two days must be taught for

No district is entitled to its share of the appropriation, in which these conditions Miss Maggie Belles, of Orange, Pa. have not been fully complied with.

Where institutes are held, it is necessary that the time of the regular school day should be used. An institute held but half a day on two Saturdays in each month, will not answer the requirements of the law.

THE Easton Argus says with truth, "Without exception, the meanest of all publications issued in this country is Harper's weekly pictorial, which is thrust under the eyes of every man who travels fifty miles on a railroad train. Pretending to be a literary paper, it is filled every week with the most senseless illiberal, unjust and untruthful attacks on the Democratic party, resorting to pictures to help the dirty work. No Democrat should touch it. We have a respect for a manly, outspoken, honest Republican paper, but the man who like Harper, sails under false colors, is no better than a common swindler."

Nothwithstanding its mean and despicable character, the dirty thing is sometimes puffed by Democratic papers.
