AGRICULTURAL.

MODES OF PRESERVING BUTTER.

In all that has been written on this subject in this country, we have seen no recommendation to melt and strain it. Yet there can be no doubt that this process proves effectual. We have often told our readers that thorough working is necessary to exclude the buttermilk, and leave the butter pure. We have told them that it has been kept sweet for years without a particle of salt, by separating entirely the impurities that are found on churning the cream. But this is not always an easy matter. 'Washing with pure water is the best method that we have practiced in this country.

We have often asked the question, why we should not boil the butter that we propose to keep, as we boil the fat of the hog for lard, and the fat of cattle and sheep for tallow?

It is well known that lard and tallow will keep sweet for a year without salt.—And who can doubt that butter may be kept as long? On examining a recent publication, which we noticed in one of late numbers of the Ploughman—"On the food animals, by Robert D. Thompson, of Glasgow,"—we find the following remarks:

"MODE OF PRESERVING BUTTER FRESH.—The cause of the tainting of fresh butter depends upon the presence of the small quantity of curd and water as exhibited by the preceding analysis. To render butter capable of being kept for any length of time in a fresh condition, that is, as a pure solid oil, all that is necessary is to boil it in a pan till the water is removed, which is marked by the cessation of violent ebullition. By allowing the liquid oil to stand for a little while, the curd subsides, and the oil may then be poured out, or it may be be strained through muslin, into a bottle, or cut out by means of a knife or cheese-gouge. This is the usual method of preserving butter in India, and also on the Continent; and it is remarkable that it is not in general use in this country. Bottled butter will thus keep for any length of time, and is the best form of this substance to use with success."

To our own taste, melted butter is more agreeable than any that has been kept in firkins, unmelted. And frowy butter is rendered more palatable by melting at the time of using it. Why not melt it before it changes?—*Massachusetts Ploughman.*

SUMMERING MANURE.—Notwithstanding all that has been said and written, showing fresh that manure immediately applied to the land, or such as is preserved in tanks or under cover, or by a mixture with straw or earth, is at least four times the value of that left in the barn-yard all summer exposed to sun and rain, wasting its richness in the air and drenching its fertilizing salts away; yet many farmers still believe, or act upon the principle of belief, that manure is like cider, growing better with age; and thus their dung is kept in the yard till August or September, a great nuisance to all around, and a sad loss to the growing crops.

We are all well aware that rotted manure is considered indispensable for certain crops, and therefore, many say they prefer to sustain the loss of its rotting to the inconvenience of using it in an unfermented state. Let those who thus think, consider, that when manure has become rotted, it is then mere humus or vegetable matter, such as decomposed leaves of trees, straw, hay, cornstalks, muck, turf, peat, road and dirt scraping, which may be had on every farm to answer the same purpose as the rotted manure. How many farmers let all these substances go to waste, thus subjecting themselves to a double loss—a depreciation in the value of their manure, and a neglect of the vegetable matters on their premises and around them.

HOW TO MAKE A DOUBLE CROP ON A POOR SOIL.—Plough up your ground intended for corn in the fall of the year, as deep as you can; let it lie till spring; at the opening of spring, when the frost is entirely out of the ground, give it a good ploughing and harrow it down. It is then in good order for preparing to plant. Take of leached ashes, two-thirds, and of ground plaster, one-third; mix them well together, and follow the droppers, and put as much of this mixture on the seeds as you can grasp in your hand and cover it well over in the usual way. The corn will grow up finely and retain a strong, vigorous growth and green color, and stand the drought much better than upon the strongest culture. The writer of this having tried the experiment for two years, has fully tested its value.

PREPARATION OF SEED WHEAT.—Mr. Johnathan Whitney, a wheat grower of Tunbridge, Vermont, speaking of preparing wheat for sowing, says:—

"I have of late been reading respecting the preparation of seed wheat. Some use salt and lime, but in different ways. I practiced using salt and lime for that purpose for about 30 years, but in a different, and I think, a better way than I have seen described. My method was this:—Take, say one bushel of wheat, put it into a tub, and take from two to four quarts of well slacked lime, and one-half pint of salt, put them into a kettle with water sufficient to wet the wheat. Boil it until the salt is dissolved. Then turn it on the wheat while boiling—the hotter the better—stirring the wheat continually until all is besmeared. Do not pour in so much as to have it stand in the bottom of the tub. Let it stand from 36 to 48 hours, without stirring—then sow it. It is an infallible remedy for smut, and will increase the product enough to pay all the trouble and expense."

TO THE AFFLICTED!

Compound Medicated Candy.

FOR the Cure of Colds, Coughs, Spitting of Blood, Bronchetis, Asthma, Whooping Cough, Pains and Oppressions of the breast, and all other Pulmonary complaints, and other diseases which have a tendency to produce Consumption. It serves also as an effectual clearer of the voice.

This Candy is entirely a vegetable preparation, the principal ingredients being, Hore-hound, Wild Cherry, Sarsaparilla, Boneset, Elecampane, Liquorice, Flax-seed, Iceland Moss, Prickly Ash, &c. and will, if taken in time, relieve the system from those distressing afflictions that tend to Consumption.

One great advantage in this valuable medicine is its cheapness, the public not being imposed upon by the enormously high prices which are generally exacted for Patent and other medical Preparations. Each package contains directions. Call and try it!

Prepared and sold at the Confection and Variety store of the Subscriber in West York street, one square from the Court-house, and next door to Thompson's Hotel. It can also be had at the Drug Stores of S. H. BUEHLER, and S. FORNEY.

☞The subscriber as usual continues his Bakery, and is prepared to supply parties at the shortest notice, with choice cakes, &c.

A Commentary for the People.

NOW publishing, the ECLECTIC COMMENTARY on the Bible, from the works of Henry and Scott, and above one hundred other writers. The work is printed on fine paper, and with large clear type. It will be completed in 24 parts, of 80 pages each, imperial 8vo, all of which are now stereotyped. It will be beautifully illustrated by accurate views of scriptural scenes, designed expressly to embellish a Commentary, and executed by the most eminent artists. Tables and charts are likewise added, where necessary for purposes of illustration, and the whole comprising as valuable a series of illustrative engravings and embellishments, as has ever been united in any similar work. It may be used with any edition of the Bible. Will be published semi-monthly at 25 cents each part.

The design of the Committee of the London Tract Society, under whose supervision the English work was prepared, has been to cover that ground where all evangelical denominations meet, and to make a plain and practical exposition of religious truth and duty.

This work is based upon the commentaries of Henry and Scott, and more than one hundred other writers in the various departments of Biblical Literature; the most important observations of these eminent divines being quoted, constituting a digest of the most valuable results at which the learned men of all ages have arrived, in their critical study of the Holy Scriptures. Reference has been had to the wants of Sunday School teachers, and of families engaged in the systematic study of the scriptures.

Perhaps there never was a juncture of time when true religion more greatly needed a safe-guard against attacks which are both boldly and insidiously aimed at her vital principles; perhaps true religion was never in a more perilous position between open enemies and pretended friends, than at this particular crisis; and surely never was it more incumbent than now, on every true friend of her holy precepts, every conscientious master of a house-hold, every anxious parent, guardian and protector, to be provided with the antidotes to the poison, which is so unscrupulously scattered abroad, or an argument against each dangerous fallacy which is propounded to the injury and detriment of that religion, which is the faithful oracle of the Divine Creator, and the best exponent of his will.

The object of the compilers has been to provide a commentary compact in size, moderate in price, and suited to christians of every station, rank and denomination.

"The family into whose hands this work comes have in their possession a store of Biblical science and practical instruction of more value than gold. The re-publication is a great undertaking, and we hope it will receive an adequate support."—*N. Y. Observer.*

"This commentary has enjoyed an extraordinary popularity as a practical exposition of God's word. It differs from any other, presenting the best evangelical illustrative and practical comments which the editors were able to select from the best scholars, on each passage in course. The text being omitted, it is enabled to present a vast amount of learning in a small space. The sources from which it is compiled afford a perfect guarantee of its soundness, both of doctrine and interpretation, while the advantage of having the opinion of different commentators is apparent and very great."—*N. Y. Evangelist.*

"We regard the Eclectic Commentary, now in course of publication by Mr. Shannon, as especially deserving the patronage of Protestant Christians. Its cheapness, beautiful finish of mechanical workmanship, and its comprehensiveness, embracing, as it does, the cream of all the ablest commentaries, all entitle it to very high consideration."—*Christian Parlor Magazine.*

We have received the most favorable notices from many distinguished clergymen of various denominations in this country, and also from the religious press, which cannot be inserted in a newspaper advertisement on account of their length—they will be found on the cover of each part.

ROBERT T. SHANNON,
118 Nassau street, N. York.

DYSPEPSIA,

And and all Diseases of the Stomach and Bowels.

DYSPEPSIA, or Indigestion and its consequences.—An eminent Professor says: "It chiefly arises in persons who lead either a very sedentary or irregular life. Although not regarded as a fatal disease, yet, if neglected, it may bring on incurable Melancholy, Jaundice, Madness, or Vertigo, Palsy, and Apoplexy. A great singularity attendant on it is, that it may and often does continue a great length of time without any remission of the symptoms.

CAUSES.—Grief and uneasiness of mind, intense study, profuse evacuations, excess in venery, excessive use of spiritous liquors, tea, tobacco, opium and other narcotics, immoderate repletion, over distention of the stomach, adeficiency in the secretion of the bile or gastric juice, exposure to cold and damp air, are the chief causes of this disease.

SYMPTOMS.—Loss of appetite, nausea, heart-burn, acidity and fœtid eructations, gnawing of the stomach when empty, uneasiness in the throat, pain in the side, costiveness, chilliness, languor, lowness of spirits, palpitations, and disturbed sleep.

TREATMENT.—*DR. ALLEN'S VEGETABLE COMPOUND* has never failed in affording immediate relief and a radical cure for this disease.

Principal Office, No. 77 N. Eighth st., east side, Philadelphia. For sale in Gettysburg by S. S. FORNEY.

July 30, 1847.—1y

A VOICE FROM KENTUCKY.

I have been afflicted with dyspepsia in its aggravated form for three years past and found no relief until I used Dr. G. Benj. Smith's Improved Indian Vegetable Pills. After using six boxes of said valuable pills, I am entirely cured. They are a general remedy. *J. K. Leeman.*

Paducah, Ky., Nov. 19, 1845.

We can certify to the above facts. Dr. Smith's Pills are universally esteemed in this vicinity.

Hodge, Givens & Co., Merchants.

At the request of Dr. G. Benj. Smith's agent, we cheerfully state that we visited the office of Dr. Smith in September last, while in New York, and found him to all appearance carrying on a very extensive business with his Indian Vegetable Pills. The extent of his established would astonish any one not initiated in the mysteries of the pill trade.—*Louisville Journal.*

☞The genuine Pills are for sale in Gettysburg, by *S. H. Buehler* and *S. S. Forney*; in Hunterstown by *Abraham King*; in Petersburg by *Mrs. Fuller*; in Cashtown by *Mrs. Duncan*, and in Hampton by *J. H. Aulebaugh.*

JOHN JACOBS, *Adm'r.*

July 16. 6w

WM. & C. RUTHRAUFF have received a very large assortment of FANS, from 3 cts to $1.25.

Will be published in Washington, D. C., on the Seventh of December next,

The United States Reporter,

A Daily Journal of Government, Legislative and General News.

THE subscriber is now enabled to announce the completion of his arrangements for the establishment of a well organized and independent Journal of News at the Seat of the General Government. The leading features of "The United States Reporter" will be the following:

I. Early intelligence of the movements of the various Departments of the Government, in reference to Domestic affairs and to the Foreign relations of the country, will be given with scrupulous fidelity. Possessing peculiar facilities for obtaining information, the "Reporter" will be enabled frequently to communicate, exclusively, intelligence of the most important character.

II. The verbatim Reports of the Proceedings and Debates of the U. States Senate, which the proprietor is bound to furnish daily to that body, in accordance with the terms of the contract made at the close of the last session of Congress. The arrangements now made will at once fully secure to the Senate of the United States an authentic and complete record of its debates; and to the people—in a greatly enlarged degree—the benefit of the experience, sagacity, and statesmanship of that body to which they have ever looked with solicitous and respectful regard.

III. The Proceedings and Debates in the House of Representatives will also be given, with fullness, impartiality, and the utmost promptitude. Each day's record will be completely made up, and appear in the "Reporter" next morning.

IV. A Synoptical View of the Proceedings and Debates of all the State Legislatures will be regularly given. Members of Congress, and all classes of readers, will thus be kept fully and systematically informed of domestic legislation in all sections of the U. States.

V. Early intelligence of all important movements in the Legislatures of Great Britain and France will be communicated by every steamer from Europe, through Reporters in London and Paris, who possess peculiar facilities for obtaining information.

VI. The General News of the Day will be given in a condensed form, with industry and attention.

Such is a brief view of what the "United States Reporter" is designed to be. All the plans and arrangements have been well matured, and the hope is confidently cherished that the "Reporter" will prove itself an energetic, industrious, dignified, and perfectly independent journal. It will have no party views—no political bias. The proprietor, by the terms of his contract with the Senate of the U. States, is bound to the condition that "the paper shall contain no political discussions except the debates." It will be a vehicle of *news*, not the organ of any set of opinions. The grand aim of the subscriber is to establish at the seat of Government a faithful and prompt reporter of all sorts of intelligence—*a responsible agent*, to which the politician, the business man, the manufacturer, the mechanic, and every one interested in the affairs of Congress and the Government, may rely at all times with implicit confidence.

It is believed that the establishment of such a reliable Journal of Intelligence, on terms which place it within reach of the great masses of the people, at the commencement of what promises to be a most interesting and eventful period in the history of Congressional proceedings, will be regarded with favor by all classes of the community; and, having thus stated his objects, the subscriber respectfully solicits a liberal and general support from the enlightened public of the United States. JAMES A. HOUSTON,

Stenographer to the Senate of the U. States.

The "United States Reporter" will be printed on a large and handsome sheet, and issued every morning, except Sundays, at the rate of $6 per annum; single copies 2 cts.

In connection with the daily paper, there will be issued from the same establishment,

THE MIRROR OF CONGRESS.

This publication will contain exclusively the reports of the proceedings and debates of the Congress of the U. States. It will be issued semi-weekly, in an elegant quarto form, throughout the sessions of Congress, and will be furnished to subscribers at the rate of two dollars for the long session, and one dollar for the short session. It is believed that this great national work will be deemed indispensable in the library of every public institution, politician, and professional man, throughout the country; and that it will be regarded by the great mass of the people as the very best political text book for their own instruction and that of their children.

IMPORTANT ANNOUNCEMENT.—Throughout the session of Congress, *Extras* will be issued from the office of the "United States Reporter," containing the reports of all such debates as may possess particularly exciting interest.

All subscriptions and communications to be postpaid and addressed to "J. A. HOUSTON, U. S. Reporter, Washington, D. C."

THE AMERICAN REMEDY.

THOMSON'S COMPOUND SYRUP OF TAR AND WOOD NAPTHA.

OF all the remedies recommended, in lat years, for the cure of CONSUMPTION, Coughs, Colds, Asthma, Bronchitis, Liver Complaint, Spitting Blood, Difficulty of Breathing, Pain in the Side and Breast, Palpitation of the Heart, Influenza, Croup, Broken Constitution, Sore Throat, Nervous Debility, and all diseases of the Throat, Breast and Lungs:

None has been found more CERTAIN and PERMANENT in its curative power over these, so general and often fatal diseases, than the above preparation. The Compound Syrup of Tar and Wood Naptha is an unparalleled remedy. In addition to the healing power of Tar—the virtues of which, in affections of the lungs, is universally acknowledged—there is combined with it in this preparation the active principles of some of the most certain Tonic Vegetable Pectorals, which unite to make it the most valuable medicine ever offered to the public for the cure of the diseases for which it is employed, so that it *never fails*, if taken in time, to produce the intended effect.

Among the teatimonials to the value of the above medicine, are several from distinguished physicians of Philadelphia. Read the following from Dr. Young, the eminent oculist:

Philadelphia, Jan. 18, 1847.

Having used in my practice, as well as in my own family, "Thomson's Compound Syrup of Tar and Wood Naptha," I have no hesitation in saying that it is the best preparation of the kind in use for persons suffering from Consumption, Coughs, Colds, and all affections of the Throat, Breast, &c. so prevalent at this season of the year.

WM. YOUNG, M. D.
152 Spruce street.

Read also the following from a man who will at any time corroborate its statements.

MOST WONDERFUL CURE.

Philadelphia, Dec. 4, 1847.

Penetrated with a deep sense of gratitude for the benefit experienced by the use of Thomson's Compound Syrup of Tar, and that others who, like me, have languished through years of affliction and suffering, without being able to find a remedy may know where it can be obtained, I voluntarily make the following statement.

About four years since, after being affected with a violent cold, it left upon me a troublesome and severe cough. Whilst the cough continued, which was with scarcely an intermission during this long period, language fails to tell what I have suffered from debility, pains in the breast and side, night sweats, difficult expectoration, oppressed breathing, and in fact all those symptoms which mark a severe pulmonary affection. The relief occasionally obtained by the discharge of the matter which obstructed the healthy action of my system, but increased my fears, as the purulent matter discharged was frequently streaked with blood.

During this time I was under the treatment of several physicians, and took many of those preparations recommended as serviceable in the cases of others, but without relief: and I at length concluded that a cure in my case was hopeless. But how agreeably changed is now my opinion! I have used for about three weeks Thomson's Compound Syrup of Tar. By the use of one bottle my cough has been relieved and my system reinvigorated, and by continuing the use of it up to this time, I am satisfied that my complaint is entirely removed and eradicated.

R. KEARNEY, 242 S. Seventh st.

☞This invaluable remedy is prepared only by Angney & Dickson, N. E. Corner of Fifth and Spruce streets, Philadelphia, and can be had of the following Agents:

S. S. Forney, Gettysburg.
R. Angney, Carlisle.
D. P. Lange, Hanover.

Price of large bottles $1.00. Beware of imitations! [April 30, 1847—1y

Stanton's External Remedy, CALLED HUNT'S LINIMENT,

IS now universally acknowledged to be the INFALLIBLE REMEDY for Rheumatism, spinal affections, contractions of the muscles, sore throat and quinsy; issues, old ulcers, pains in the back and chest, ague in the breast and face, toothache, sprains, bruises, salt rheum, burns, croup, frosted feet, and all nervous diseases. The *triumphant success* which has attended the application of this most *wonderful medicine* in curing the most severe cases of the different diseases above named, and the *high encomiums* that have been bestowed upon it, wherever it has been introduced, gives me the right to call on the *afflicted* to resort at once to the *only remedy that can be relied on.*

CERTIFICATE.

East Berlin, Pa., May 28, 1847.

GEO. E. STAUNTON,

Dear Sir,—I consider it my duty to express my sentiments, in behalf of your invaluable medicine called *Hunt's Liniment.*

I have for some time past used the Liniment in my practice, for various diseases, and feel satisfied, from the success attending its application, that it merits all that can be said in its behalf.

I consider it one of the best *external remedies* I have ever used in cases of Tetter, Ringworm, Salt Rheum, pains, bruises, cuts, swellings, &c.

The cheap rate at which the articles is to be had, places it within the reach of all. It should form the principal *external remedy* of every family.

DANIEL BAKER, M. D.

Hampton, Adams Co., Pa. May 29, 1847.

GEO. E. STAUNTON,

Dear Sir—I feel bound to the afflicted to give publicity to the extraordinary effects of your invaluable External Remedy, called Hunt's Liniment.

My daughter, a girl of twelve years old, had been afflicted with *White Swellings*, in one of her legs, directly below the knee joint, for several months, during which time her sufferings have been excruciating and deplorable. I called on a Physician, who, during frequent visits, made use of every means in his power to arrest the fell destroyer, but all without effect. The leg continued swelling, until it opened, forming various disagreeable ulcers, rendering amputation necessary unless immediate relief be had. Fortunately, however, on the first day of December last, your agent having been in our village, and hearing of the sufferings of my daughter, he sent me one bottle of your Liniment, the use of which alone, thank God, has not only arrested the further progress of the disease, but has cured the leg perfectly, removing all pains and swellings, and restored the leg to its proper use.

I am under many obligations to your kind agent, who thus, by one bottle of your invaluable medicine, saved the leg of my daughter from *amputation.* Your Liniment should find its way into every family. MOSES PHILLIPS.

May 29, 1847.

"We, the undersigned, citizens of Hampton, are acquainted with Moses Phillips, and know him to be a man of truth, and that the facts as set forth in his certificate, are correct."

GEORGE FORROR, JACOB DEARDORFF,
JACOB AULABAUGH, WM. A. ALBERT,
SOLOMON ALBERT, JOEL GOCHENOUR.

This Liniment is sold at 25 and 50 cents per bottle by all the principal Druggists and Merchants.

June 11, 1847. [Dec. 2-1y]

Protection against Loss by Fire.

THE "Cumberland Valley Mutual Protection Company," being incorporated by an Act of the Legislature, and fully organized and in operation under the direction of the following Board of Managers, viz: T C Miller, James Weakly, D W M'Cullough, A G Miller, T A M'Kinley, Philip Spangler, Samuel Galbraith, Samuel Tritt, Ab'm King, (Adams,) John Zug, Samuel Huston, J T Green, J Bear—call the attention of the inhabitants of Cumberland and Adams counties to the cheapness of the rates, and the many advantages which this kind of insurance has over any other.

1st. Every person insured becomes a member of the company and takes part in the selection of officers and the direction of its concerns.

2d. For insurance no more is demanded than is necessary to meet the expenses of the Company, and indemnity against losses which may happen.

3d. The inconvenience of frequent renewals is avoided by insuring for a term of five years.

4th. Any person applying for insurance must give his premium note for the cheapest class at the rate of five per cent., which will be $50 on the 1000, for which he will have to pay $2 50 for five years and $1 50 for survey and policy, and on more unless loss be sustained to a greater amount than the funds on hand will cover, and then no more than a pro rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles. T. C. MILLER, President.

A. G. MILLER, Secretary.

☞The following named persons have been appointed *Agents* for Adams County:—Wm W Paxton, Esq. Letters and *Communications* to the Editor, (excepting such as contain Money or the names of new subscribers,) must be POST PAID, in order to secure attention.

DR. M'LANE'S VERMIFUGE.

Promptly expels Worms to an almost incredible number!

TO substantiate the above fact many hundreds of testimonials could be adduced, out of which the following are selected, from individuals of standing and veracity. Indeed, it is confidently affirmed that each new trial of the powers of this remedy will have an additional tendency to widen and confirm its fame, and that if it were universally known and diffused over the U. States, it would save not less than many hundreds, if not thousands of lives annually.

CERTIFICATES.

I do certify that a vial of Dr. M'Lane's American Worm Specific expelled five hundred and two whole worms, and pieces that would have made sixty more, from a boy of John Lewelling, which, if laid in a straight line, would have most probably measured the enormous length of one hundred yard. JOSIAH JACKSON,

Owner of Water Forge, and other works, Monongalia county, Va.

This is to certify that I purchased from Holmes & Kidd a vial of Dr. M'Lane's American Worm Specific, and gave two doses to a boy of mine about three yers of age. He passed fully half a pint of worms. The quantity was so large I was really alarmed, and called in several of my neighbors to see them. Had this story been related to me, I could not have credited it, without being an eye-witness to the same. My child's health improved much after. SAM'L MORRISON,

Merchant Tailor, Wood st., Pittsburg.

Hear Medical Testimony.

From a regular Physician, Dr. G. S. Smith, Sunfish, Ohio.

Mr. J. Kidd—Dear Sir: I have used in my practice Dr. M'Lane's American Worm Specific, and have often witnessed its efficacy in expelling worms from the system. A patient of mine, a short time ago, gave a vial of the Worm Specific to a child and in a short time upwards of 65 worms were expelled.

Dr. A. P. Oryell certifies that he has frequently used the Specific in his practice, and with unvarying success, it never failing to expel from 25 to 150 worms.

A child of mine passed one-third of a pint of worms with one vial of Dr. M'Lane's Worm Specific. It is truly a surprising medicine.

T. Blackburne, Peebles township.

Surprising effects of Dr. M'Lane's Worm Specific.

On Saturday Feb. 7, 1846, Mr. James Richardson called at the office of J. Kidd & Co. and made the following statement:

A child of mine had been very sick for some ten days; we had given her purgative medicine, but it had done no good. One of our neighbors came in and said that it was worms that was destroying the child, and at the same time spoke of the wonderful effects she had witnessed from using Dr. M'Lane's Worm Specific in that neighborhood. We procured a vial, gave one teaspoonful, when the child discharged 42 large worms. I gave another teaspoonful, which brought away 46 more, in all 88 worms. As a duty I owe to you and the community I freely make known these facts. My child is now well. What is very remarkable, the Worm Specific expelled the worms alive in about four hours after I gave the medicine.

N. B. Be particular to inquire for Dr. M'Lane's American Worm Specific, or Patent Vermifuge. Prepared for the Proprietor by J. KIDD & Co. Wholesale & Retail Druggists, Wood st. Pittsburg.

☞The above medicine can be had of the following agents:

DR. CULLEN'S *Indian Vegetable Panacea.*

AN EXTRAORDINARY CURE.

MESSRS. ROWAND & WALTON—Having experienced the extraordinary efficacy of your Dr. Cullen's Indian Vegetable Panacea upon my own person, a feeling of gratitude for your wonderful discovery, and a desire that your Medicines should be known and appreciated by the public, has induced me thus voluntarily to give you an account of my case, hoping that others who may be so unfortunate as I have been, may be induced to throw prejudice aside and give your Panacea a fair trial.

In February, 1846, a lump or tumor first appeared upon the spine of my right leg, and another on the lower part of my breast near the junction of the ribs; they increased gradually until the early part of June, about which time they became very painful. In July the tumor on the left leg ULCERATED and became a running sore, extending itself until it was half the size of a man's hand, and had eaten
