
AGRICULTURAL.

FALL AND WINTER PLOWING.

Plowing late in the fall and during winter may in some instances be beneficial; in others injurious. As a general rule, the principal reason that can be given in favor of the practice, is that the work is performed at a time of leisure, and the farmer is relieved from the pressure and hurry which would attend the crowding of all his plowing into a few days of spring. Loose gravelly and sandy lands are not, probably injured by late plowing; but compact soils, if plowed in fall, are sometimes so beaten down by the heavy rains of winter and spring, that more labor is actually required to bring them into suitable condition for crops, than if they had been touched till near the time of sowing or planting.

The idea that anything is gained by the decomposition of sward by late fall plowing, is, we are convinced, a mistake. On the contrary, every one who has had an opportunity of observing, may have seen that sward which is broken up after the weather has become warm, and the grass somewhat started in the spring, rots much sooner than that which was plowed in fall or winter.

But clayey soils, which have been well drained, may be greatly improved by fall plowing if it is done in the right way.—The ground should be thrown into narrow ridges, which should run in such a direction as will most readily turn off the water from the field. Let two furrows, as deep as can well be plowed, be turned together, in the form of what are called "back-furrows," and the whole field be plowed in this way. This will expose a large portion of the soil to the action of the frost and air. The ridges will be dry, and the soil being frozen and thawed while in this state, it will become loose and friable, and on cross-plowing the ridges, when the proper time arrives for seeding, the soil will be mellow, and in excellent condition for a crop. This course has produced good crops of grain and vegetables on land which would yield little or nothing in any other way.

Land which is overrun with couch-grass, may also be plowed in ridges in the fall to good advantage—especially if the soil is of a compact nature. The freezing of the roots will tend to weaken their vitality, and greatly facilitate the cleaning of the land, which should be done by a thorough fallowing, and working out the grass roots, which should be collected and burnt the next season.—*Albany Cultivator.*

HENS.—These useful fowls should at all times be carefully attended and provided for. Comfortable lodgings in severe weather; a plenty of food, drink, and other articles required by their peculiar habits and constitution, should by no means be denied. An old farmer informed me recently that he considered the neat profit of six hens, properly attended, equivalent to the neat income of a tolerable cow.—"But," said he, "they must be fed and cared for, else they will not only prove an annoyance to the owner, but a source of greater expense than income." As a general rule, it may be remarked, that the better we keep our domestic fowls and animals of all kinds, the greater profit will they afford us. A half starved cow, ox, horse, turkey, duck, or hen, is not only a pitiable but a profitless object. Hens should be constantly provided with meat, as this constitutes, during summer, their chief substance; hence, when they are confined during the inclement seasons of the year, they should be favored with it in proper quantity, and at proper times.—Lime, sand, bones, &c. are necessary to their health, and to promote fecundity.

Germantown Telegraph.

PRESERVING BUTTER.—The farmers in the parish of Udney, in the county of Aberdeen, Scotland, practice the following method of curing their butter, which gives it a great superiority over that of their neighbors:—Take two parts of the best common salt, one part of sugar, and one part of saltpetre; take one ounce of this composition for sixteen ounces of butter; work it well into the mass, and close it up for use. The butter cured with this mixture appears of a rich and marrowy consistence, and fine color, and never acquires a brittle hardness, nor tastes salty. Dr. Andersen says, "I have ate butter cured with the above composition, that had been kept three years, and it was as sweet as at first." But it must be noted that butter thus cured, requires to stand three weeks or a month before it is required to be used; if it be sooner opened, the salts are not sufficiently blended with it; and sometimes the coolness of the niter will then be perceived which totally disappears afterwards.—The above is worthy the attention of every dairy woman.

MANURE.—The old Scotch proverb that "many a little makes a muckle," ought to be borne in mind by every one who is desirous of economising. Franklin has said that "a penny saved is two pence earned." In the business of accumulating and economising materials for manure, the application of the principles of industry and frugality, are indispensable. No business is of more vital importance on a farm. Let every particle of manure—every substance capable of being converted into the pabulum or food of plants, or of contributing to the productiveness of the soil, be carefully preserved for use.

Were this injunction more generally observed, we should hear far less of short crops exhausted fields, and see far fewer instances of that poverty which is engendered by slothfulnes and idleness even in the midst of wealth. Remissness in this important department, carries disappointment and perplexity, want and wo into the farmer's affairs.—*Ib.*

PROSPECTUS FOR 1848.

GRAHAM'S MAGAZINE.

The most Popular Monthly in the World.

THE leading writers all in "Graham"—William C. Bryant, J. Fenimore Cooper, William Henry Herbert, Theodore S. Fay, W. Gilmore Simms, Fanny Forrester, Mrs. A. M. F. Annan, Mrs. Amelia B. Welby, N. P. Willis, Professor Longfellow, J. K. Paulding, Charles J. Hoffman, Edgar A. Poe, E. P. Whipple, Mrs. Stevens, Mrs. Sigourney.

"Graham" is now universally acknowledged to surpass, in the excellence and variety of its contents, and the style of its execution, any periodical published in America, and it is questionable whether any magazine in the world—not excepting even Blackwood's—ever presented an array of contributors of equal reputation. Its circulation is about one-third larger than that of any other monthly in the English language.

We have resolved, as far as "Graham" is concerned, to give a proper direction to the popular taste; and purpose, in the coming volume, greatly to amplify the literary department of the work—to engage none but the very best writers—to open a field for young writers of merit—and, in fine, to cultivate a *National Periodical Literature*, which shall command respect at home and abroad.

While all the other monthly periodicals are crumbling to decay, and resorting to every expedient to save themselves from destruction, "Graham" pursues the even tenor of its way, proudly at the head of the periodical literature of the day—with its 50,000 readers, gradually widening its influence, and extending its circulation.—The policy adopted in this Magazine, of giving the *best, both in Literature and Art*, has established it upon the sure basis of public confidence.

Elegant Paris Fashions in every Number.—"Graham," for 1848, will be beyond all doubt so far superior to the class of small magazines which attempt to *imitate it*, that in every post town it will utterly route them out. For why should any man or woman pay money for a second rate article, when the best is offered at the same price. Reader, think for yourself, examine and subscribe for the best periodical, and do not be deluded by the stale and never-redeemed promises of those whose words are as worthless as their wares. It is a fact, that for the last seven years, promises have been made of excelling "Graham" by every petty pretender; yet the Magazine still maintains triumphantly the ascendant.

We promise our readers in January such a number as shall pale "the ineffectual fires" of our imitators, who seize a good idea which we have executed, and make it common by the baseness of the copy.

Portraits of our Army Heroes.—We have already given our readers a magnificent likeness of GEN. TAYLOR, and have now ready executed a magnificent likeness of GEN. BUTLER, and shall follow rapidly with portraits of all the leading men who have distinguished themselves in the present war. This series of portraits will be prized by every patriot.

We design to commence in the January number, in addition to New Novels by Willis and Fay, a most beautiful SEA STORY, which has been highly praised by the best judges, and has only been withheld from our readers in the last volume as we had already running thro' the Magazine the Novel by Cooper. For the New Year we have made the most liberal arrangements in regard to the work, with a determination to make A GREAT NATIONAL MAGAZINE—contributed to by the highest talent in the country—free from all cliques and sectional differences, and relying on the merits of its literary matter, and excellence of its illustrations, for a still wider support. The volume to be opened with a new and beautiful type, the finest white paper, and with a series of embellishments unsurpassed by any which have yet appeared in any magazines

Our Mezzotint Engravings.—It affords us much satisfaction to be able to state, that we have made arrangements with Mr. Sartain, the accomplished mezzotint engraver, whose plates have contributed so much to the beauty of the Magazine heretofore, by which we secure his splendid mezzotints for the work alone. His beautiful engravings will therefore form a feature of Graham's Magazine, so that we shall be able to distance any thing like competition on the ground.

Our Beautiful Fashion Plates.—These exquisite creations of taste and skill we have engaged exclusively, from the publisher of "Le Follet," and all other efforts to get them have failed. An attempt has been made to deceive the public by re-engraving the old designs; but these duplicates are so far beneath the original Paris designs sent to "Graham," that they excite only contempt. Our arrangements are complete, and we cannot be equalled in the beauty and correctness of this department of the Magazine. These plates appear in every number.

DYSPEPSIA,

And and all Diseases of the Stomach and Bowels.

DYSPEPSIA, or Indigestion and its consequences.—An eminent Professor says: "It chiefly arises in persons who lead either a very sedentary or irregular life. Although not regarded as a fatal disease, yet, if neglected, it may bring on incurable Melancholy, Jaundice, Madness, or Vertigo, Palsy, and Apoplexy. A great singularity attendant on it is, that it may and often does continue a great length of time without any remission of the symptoms.

CAUSES.—Grief and uneasiness of mind, intense study, profuse evacuations, excess in venery, excessive use of spiritous liquors, tea, tobacco, opium and other narcotics, immoderate repletion, over distention of the stomach, adeficiency in the secretion of the bile or gastric juice, exposure to cold and damp air, are the chief causes of this disease.

SYMPTOMS.—Loss of appetite, nausea, heart-burn, acidity and fœtid eructations, gnawing of the stomach when empty, uneasiness in the throat, pain in the side, costiveness, chilliness, languor, lowness of spirits, palpitations, and disturbed sleep.

TREATMENT.—*DR. ALLEN'S VEGETABLE COMPOUND* has never failed in affording immediate relief and a radical cure for this disease.

To Farmers and Lime Burners.

NOTICE is hereby given that JACOB H. BOWER, of Juniata county, Pa. has recently invented and procured Letters Patent for an improvement in the construction of Lime Kilns, to which the attention of Farmers and Lime Burners is respectfully requested. A Kiln can be constructed according to this patent, to yield one thousand bushels of Lime for about twenty dollars, and larger kilns can be built at the rate of six dollars per arch. Kilns can be made any size to suit the convenience of persons. The system has been well tested, and has proved to be vastly superior to any system ever tried, as kilns can be built for one-half the cost formerly attending their construction.

The subscriber is duly authorized a gent to dispose of FARM RIGHTS, in Juniata, Adams, Franklin, Union and Bedford counties, and to furnish Letters Patent, Schedule, Drawing and Deed for the same. Stanton's External Remedy,

CALLED

HUNT'S LINIMENT,

IS now universally acknowledged to be the INFALLIBLE REMEDY for Rheumatism, spinal affections, contractions of the muscles, sore throat and quinsy, issues, old ulcers, pains in the back and chest, ague in the breast and face, tooth ache, sprains, bruises, salt rheum, burns, croup, frosted feet, and all nervous diseases. The *triumphant success* which has attended the application of this most *wonderful medicine* in curing the most severe cases of the different diseases above named, and the *high encomiums* that have been bestowed upon it, wherever it has been introduced, gives me the right to call on the *afflicted* to resort at once to the *only remedy that can be relied on.*

The following certificate of the restoration to health and the perfect cure of a deformed and crippled child, who was thought to be beyond the reach of hope, shows that, no matter how appalling the case may be, there is a remedy in Hunt's Liniment, that will conquer the most desperate cases; and that, if the disease is curable, this celebrated external remedy will do it. It has never failed in giving immediate relief when timely applied, as proved by the abundance of high and unimpeachable testimony, the particulars of which are to be found in the pamphlets which are to be had of every agent.

Ossinsing, June 10, 1845.

G. E. Stanton, Esq.—Sir: I feel called upon by the tie of gratitude to offer the following testimony in favor of your External Remedy, Hunt's Liniment. My grandson, Clark E. Evans, who is now ten years of age, has been for the last eight years a *cripple*, caused by falling from a chair when he was two years old, and wrenching his spine. From the time of the occurrence we have tried every means to restore him to his natural shape, but all without avail. We took him to N. York, and placed him under the care of a physicial of skill, and, after remaining there for some time, we brought him home no better than when we took him there. For several days at a time he was so helpless that he could only walk by placing his hands upon his knees for support, giving him the appearance of a deformed hunchback. He was also taken to Newburg and prescribed for without any better success. At times he would be strong enough to go out of doors, but after playing an hour, would come in perfectly exhausted, and for several days after would be again perfectly helpless. We had lost all hope of seeing him restored to his natural shape or strength; but a kind Providence placed your External Remedy in my hands. I have used but four bottles, and am rejoiced to say that the boy is now as straight as any boy of his age. Any of my neighbors will testify to the truth of this statement. I take sincere pleasure in stating these facts for the benefit of others suffering under a like calamity. Your's respectfully, RACHAEL SHUTE.

This is to certify that I am personally acquainted with Mrs. Shute, as well as the boy alluded to, and frankly bear witness to the deformity with which he was seriously afflicted, apparently for life. Dated Sing Sing, June 9, 1845.

HENRY HARRIS, Justice of the Peace.

This Liniment is sold at 25 and 50 cents per bottle by all the principal Druggists and Merchants.

Orders addressed to me at Sing Sing, N Y, will be attended to. G E STANTON, Proprietor.

Protection against Loss by Fire.

THE "Cumberland Valley Mutual Protection Company," being incorporated by an Act of the Legislature, and fully organized and in operation under the direction of the following Board of Managers, viz: T C Miller, James Weakly, D W M'Cullough, A G Miller, T A M'Kinley, Philip Spangler, Samuel Galbraith, Samuel Tritt, Ab'm King, (Adams,) John Zug, Samuel Huston, J T Green, J Bear—call the attention of the inhabitants of Cumberland and Adams counties to the cheapness of the rates, and the many advantages which this kind of insurance has over any other.

1st. Every person insured becomes a member of the company and takes part in the selection of officers and the direction of its concerns.

2d. For insurance no more is demanded than is necessary to meet the expenses of the Company, and indemnity against losses which may happen.

3d. The inconvenience of frequent renewals is avoided by insuring for a term of five years.

4th. Any person applying for insurance must give his premium note for the cheapest class at the rate of five per cent., which will be $50 on the 1000, for which he will have to pay $2 50 for five years and $1 50 for survey and policy, and on more unless loss be sustained to a greater amount than the funds on hand will cover, and then no more than a pro rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles. T. C. MILLER, President.

A. G. MILLER, Secretary.

The Daily National Whig

IS PUBLISHED EVERY DAY IN THE City of Washington, at 8 o'clock, P. M.—Sundays excepted—and served to subscribers in the City; at the Navy Yard in Georgetown; in Alexandria and Baltimore on the same evening, at 6 cents a week, payable to the sole Agent of the Whig, G. L. Gillchres, Esq., or his order. It is also mailed to any part of the U. States for $4 per annum, or $2 for six months, payable in advance. Advertisements of ten lines or less inserted one time for 50 cents; two times for 75 cents; three times $1; one week for $1 75, two weeks for $2 75; one month $4; two months $7; three months $10; six months $17; one year $30—payable always in advance.

THE NATIONAL WHIG is what its name indicates. It speaks the sentiments of the Whig party of the Union on every question of public policy. It advocates the election to the Presidency of ZACHARY TAYLOR, subject to the decision of the Whig National Convention. It makes war to the knife upon all the measures and acts of the Administration deemed to be adverse to the interests of the country, and exposes without fear or favor the corruptions of the party in power. Its columns are open to every man in the country for the discussion of political or any other questions.

In addition to politics, a large portion of the National Whig will be devoted to publications upon Agriculture, Mechanic and other useful arts, Science in general, Law, Medicine, Statistics, &c. Choice specimens of American and Foreign Literature will also be given, including Reviews, &c. A weekly list of the Patents issued by the Patent Office will likewise be published—the whole forming a complete family newspaper.

THE WEEKLY NATIONAL WHIG,

one of the largest newspapers in the U. States, is now made up from the columns of the Daily National Whig, and is published every Saturday for the low price of $2 per annum, payable in advance. A double sheet of eight pages will be given whenever the press of matter shall justify it. The memoirs of Gen. Taylor, written expressly for the National Whig are in course of publication. They commenced with the second number, a large number of copies of which have been printed, to supply calls for back numbers,

More facts in relation to the wonderful efficacy of

THOMPSON'S

Compound Syrup of Tar & Wood Naphtha, the BEST REMDY of the day for CONSUMPTION, *Asthma, Coughs, Colds, Liver Complaint, &c., &c., &c.*

READ the following from Mr. Sharp, a well known and highly respectable citizen of the Northern Liberties, Philadelphia County. This is one of the most astonishing cures on record, and, it will be seen, is attested by the Rev. Mr. STARRT, and by other citizens of that district:

PHILADELPHIA, AUGUST 11, 1847.

Near the close of the year 1845, I had an attack of the Pleurisy and while recovering from it, I took a severe cold. My condition soon became alarming and I grew gradually worse and worse.

The symptoms manifested by my disease were those ordinarily found in pulmonary affections—but mine were of an exceedingly aggravated character. For a long period I expectorated a great quantity of matter, which appeared a mixture of pus and blood—at times it seemed as if I was discharging the very substance of the Lungs. My voice was gone so as to be unable to utter a few words without great difficulty, and I experienced a thousand other painful sensations that cannot be told. One of the most unpleasant attendants of my disease were chilling sweats. The cold perspiration ran from me continually, not only at night, but also during the day so as to keep my cloths at all times continually wet.

I employed every means of cure I could hear, and was attended by several eminent and skillful Physicians. But the obstinacy of my disease baffled all their efforts. They indeed raised me from my bed, but they also pronounced me incurable. The last Physician attending me, told me at one time, that I had but a few days to live—at another time I might linger on a few weeks or months, but that it was utterly impossible that I could get well, or ever be able to attend to my business. Thus, with no prospect of recovery I lingered on during the greater part of the year 1846—for three months of which period my friends sat up with me, expecting every night to see my sufferings end in death.

But last fall, a lady residing in Southwark, who had been cured of somewhat similar sufferings by "Thompson's Compound Syrup of Tar and Naphtha," came and urged upon me a trial of it. Almost despairing of any relief, and with no hope of recovery, I commenced its use. Imagine then my satisfaction in being able to state that I am NOW WELL! and I attribute my restoration entirely to the wonderful efficacy of the above medicine. From the time I commenced its use, the disease began to yield its hold upon me, and by steady perseverance in its employment I may say it has raised me from the grave. All unpleasant symptoms have vanished and I have for several months attended to my business as formerly, and (except some less degree of strength than I once possessed,) as well as ever.

People come from various places to see me, inquiring for the man cured of Consumption! Those who have known me and are well acquainted with my long continued afflictions, stop with astonishment when they meet me, at seeing the wonderful change wrought by the use of the above medicine.
