

SHORT ALMANAC FOR THE YEAR OF OUR LORD 1848.

Table with columns for months (January to December) and days of the week, listing the day of the month and the day of the week.

PREDICTIONS FOR THE YEAR 1848.

According to a new Almanac, the year of our Lord, 1848 is to be an eventful one. We extract from said Almanac the following significant predictions, which will doubtless be fulfilled:

"Through the whole course of the coming year, whenever the moon waxes the night will grow dark. On several occasions, during the year, the sun will rise before certain people discover it, and set before they have finished the day's work."

It is quite likely that when there is no business doing, many will be heard to complain of hard times, and it is equally certain that all who hang themselves will escape starvation. If bullets and hoops go out of fashion, a church pew will hold more than three ladies. If dandies wear their beards, there will be less work for the barbers, and he who wears mustaches will have something to sneeze at."

"There will be many eclipses of virtue, some visible, others invisible. Whosoever is in love will think his mistress a perfect angel, and will only find out the truth of his suspicion by getting married. Many delicate ladies, whom no one would suspect, will be kissed without telling their Ma's."

The Second Volume commences with the January Number, 1848. The conclusion of the first half-year of the Union Magazine, the Publisher feels impelled to make some acknowledgment of his sense of the favorable reception accorded to it by the public. Its success has certainly been unprecedented, and while it may be pardoned to ascribe this in part to the merits of the work, it must not be denied that the public good will and kindness which have been abundantly demonstrated. The press, in all parts of the country, has given its voice liberally and heartily to the new spirit.

It is to be regretted that the copyright of the Union Magazine is not yet secured, and that the publisher has been obliged to have simulated than slackened his exertions. S. Beld, Thomas Dooley, Mr. Osborne, Robert Hinwood, W. S. Barnard, P. Childs, P. Loomis, &c. from original designs by T. H. Mattison, who has the sole direction of all the designs for the Engravings. The Literary matter will continue to be under the exclusive control of the Editor, Mrs. C. M. Kirkland, by the aid of contributors who are already established favorites of the reading public or worthy to become so. Such as Mrs. L. M. Child, Mrs. L. H. Sigourney, Mrs. F. S. Osgood, Mrs. Emory, Mrs. Elliot, Mrs. Butler, Mrs. Dana, Mrs. Sedgwick, Miss Gould, Miss Herbert, Bryant, Willis, Arthur, Harbert, Tuckerman, Sims, Dwyer, Bourne, Magner, Woodworth, Lannan, &c. &c.

S. Consul to Shanghai, China, which, to the curious and intelligent, will be worth at least a year's subscription to the Magazine. The price of the Magazine, when the literary ability, ingenuity of Artists, and adequate capital can do, to make the Union Magazine worthy of the place already so generously granted it in the public esteem.

TO PRACTISING PHYSICIANS.--Let me impress upon conscientious physicians the importance of a trial of the Brandreth Pills. Let them make a fair trial, and they will concede the medicine is the best evacuant of the bowels hitherto discovered. The ingredients are all prepared expressly for the manufacture of the Brandreth Pills, and it is impossible to obtain a purgative of the same power, except from Dr. B. Brandreth. Let physicians and the world at large be in mind that the Brandreth Pills may be taken, if necessary, for any length of time daily, not only without injury, but with a certainty of beneficial results. This universal medicine mildly but surely cleanses the whole extent of the alimentary canal. It then gives increased power to the circulation of the blood, by which it deposits any impurities it may have accumulated in the bowels, which organ expels them from the body. This action may continue for days, weeks, or months, as the mildness or urgency of the disease may demand, or until the entire bowels have been evacuated, and the system purified. How important is it that persons of feeble frame, of impure constitutions, should, without delay, commence with this pure and wholesome medicine. No time ought to be lost, by using Lenoxes or Castors as medicines, which are better adapted for the destruction of the teeth, than for the cure of any disease. Experience has sufficiently tested that those remedies contain invariably calomel and other active chemical agents that have a very deleterious effect, and which are too many individually combined to their cost. The testimony in favor of the Brandreth Pills, and the numbers who are daily raised from a bed of misery by their use, render it imperative that all who are suffering from constipation should give them a trial. TO PURCHASERS.--That Brandreth's Pills have stood a fourteen years' test in the U. S. States. That they are a vegetable and innocent medicine, yet as powerful in the removal of disease, whether chronic or recent, infectious or otherwise. That they purify the blood, and stay the further progress of disease in the human body. That in many cases, where the dreadful ravages of ulceration had laid bare ligament and bone, and where, to all appearance no human means could save life, have patients, by the use of these pills, been restored to good health; the devouring disease having been completely eradicated. The Brandreth Pills are sold for 25 cents per box at Dr. B. Brandreth's Principal Office, 241 Broadway, N. York, and by the following duly authorized Agents:--J. M. Stevenson & Co., Gettysburg; J. B. McCreary, Pittsburg; Abraham Strong, Harrisburg; A. Myrland, Abbotstown; D. M. G. White, Hampton; Sreiner & Fink, Littlestown; Mary Duncan, Cashtown; Geo. W. Heagy, Fairfield; J. H. Aulabaugh, East Berlin; D. Newcomer, Mechanicsville; Sam'l Shirk, Hanover. Dec. 3, 1847.

DYSPEPSIA, And all Diseases of the Stomach and Bowels.

DYSPEPSIA, or Indigestion and its consequences. An eminent Professor says: "It chiefly arises in persons who lead either a very sedentary or irregular life. Although not regarded as a fatal disease, yet, if neglected, it may bring on incurable Melancholy, Jaundice, Madness, or Vertigo, Palsy, and Apoplexy. A great singularity attendant on it, is that it may often do continue a great length of time without any remission of the symptoms. CAUSES--Grief and uneasiness of mind, intense study, profuse evacuation, excess in venery, excessive use of spirituous liquors, tea, tobacco, opium and other narcotics, immoderate repletion, or over distention of the stomach, deficiency in the secretion of the bile or gastric juice, exposure to cold and damp air, are the chief causes of this disease. SYMPTOMS.--Loss of appetite, nausea, heart-burn, acidity and foetid eructations, gnawing of the stomach when empty, uneasiness in the throat, pain in the side, costiveness, chilliness, languor, lowness of spirits, palpitations, and disturbed sleep. TREATMENT--DR. ALLEN'S VEGETABLE COMPOUND has never failed in affording immediate relief and a radical cure for this disease. Principal Office, No. 77 N. Eighth st., east side, Philadelphia. For sale in Gettysburg by S. S. FORNEY, July 30, 1847.--ly

Dr. W. Appleton's Celebrated Remedy FOR DEAFNESS. PAINS in, and discharge of matter from, the ear, together with all other unpleasant symptoms, which either accompany or announce approaching Deafness, may be cured by the use of the result of a long and faithfully pursued course of experiments instituted with the sole view to discover (if possible) a certain, and at the same time, a safe remedy for this dreadfully afflicting disorder, and after being extensively used in the private practice of the subscriber during the last eight years, in very numerous cases with the most remarkable success, is now offered to the public, for the benefit of those who, from distance or other causes, cannot be attended to by the proprietor, in the fullest confidence of its efficacy, and in the firm belief that it will not disappoint the expectations of those who may have occasion for its use. In short, that it is the most VALUABLE article ever offered to the public for this disease. For sale in Gettysburg by S. H. BUEHLER, in Abbotstown by Wm. BERTHAUSEN, in Oxford by L. L. RILEY, and in Franklin township by THOMAS J. COOPER. [Aug. 6, 1847.--ly

Allen, a gentleman well known in this City, who was cured by the use of two bottles of Ross's Expectorant, every thing else having failed to afford any relief. This is but one of a number of which the proprietor has in his possession, all of which, in due time, will be laid before the public. Mr. J. F. Ross, Baltimore, April 3, 1847. I caught a severe cold which fell upon my breast, accompanied with pains in my side and a dry hacking cough. I commenced taking a syrup that was recommended to me, but from which I derived not the least benefit. I then commenced drinking freely of composition tea, but with the same result; in fact, my cough was getting worse, and I became so hoarse that it was with difficulty I could speak above a whisper. At your request, I was induced to try your Expectorant, and I am happy to inform you I was entirely cured by the use of two bottles. I remain, very respectfully, yours, &c. T. S. ALLEN, No. 5 Fayette st. SCIENTISM CONFOUNDED. More facts in relation to the wonderful efficacy of THOMPSON'S Compound Syrup of Tar & Wood Nephtha, the BEST REMEDY of the day for CONSUMPTION, Asthma, Coughs, Colds, Liver Complaints, &c., &c. Read the following from Mr. Sharp, a well known and a highly respected citizen of the Northern Liberties, Philadelphia County. This is one of the most astonishing cures on record, and it will be seen, is attested by the Rev. Mr. Starns, and by other citizens of that district. Near the close of the year 1847, I had an attack of the Pleurisy and while recovering from it I took a severe cold. My condition soon became alarming and I grew gradually worse and worse. The symptoms manifested by my disease were those usually found in pulmonary affections, but mine were of an exceedingly aggravated character. For a long period I expectorated a great quantity of matter, which appeared a mixture of pus and blood at times it resembled a thick discharge of the very substance of the lungs. My voice was gone so as to be unable to utter a few words without great difficulty, and I experienced a thousand other painful sensations that cannot be told. One of the most unpleasant attendants of my disease was a chilling sweat. The cold perspiration ran from me continually, not only at night, but also during the day so as to keep my clothes at all times continually wet. I consulted every eminent physician I could hear of, and was attended by a number of skillful Physicians. But the ordinary of my disease baffled all their efforts. They indeed tried me from my bed, but they also pronounced me incurable. I then tried a variety of attending I took me at one time that I might attend to my business, but mine were so weak that I was unable to attend to my business, and I experienced a thousand other painful sensations that cannot be told.
