

AGRICULTURAL

From the American Farmer.

WORK FOR JANUARY.

Grain Fields.—Have you carefully examined these, at intervals throughout the season, to see whether any obstructions were in the water-furrows, calculated to impede the free passage of the water? If not, do it without any further delay. Let not your examination be a superficial one, and from this until spring make a personal inspection of them every two weeks, and wherever you find clods of earth, sticks or stones, which may have fallen in, have them removed, as there is nothing like letting your wheat and rye plants a dry bed to repose in during the winter. We feel assured that if proper attention were paid to keeping the drains open, much of the freezing out would be prevented.

Fire Wood.—This is a favorable season for procuring a supply of fuel, to serve you not only through the winter, but during the summer and fall. By doing so, you will study your interest, economize time, and not experience the mortification of having a part of your force diverted from field duties, to procure wood for the house in summer. The wood, when cut, should be hauled in without delay, and corded up near the house for use as wanted.

Winter Ploughing.—As there are many intervals of weather through the winter, when the frost is sufficiently out of the ground to enable you to have your stiff clays, intended for spring culture, ploughed, let us advise you never to let such an interval pass without putting every plough you can spare to work; and to see that the ploughmen do their work as deep as the strength of your team will allow.

Fencing, &c.—This is the season when you should get all your posts, rails, and other lumber out, and we need scarce tell you that after it is cut it should be carted to the home enclosures, for the convenience of employing the hands in working it up during such wet days as they cannot be occupied in out-door work. From all such trees as may be felled for the purposes named, the bark should be stripped off, as it will facilitate the seasoning of the timber, and prevent the ravages of the wormy depriving them of a hiding place. Fences.—A rigid examination of the whole of your fences should be forthwith made, so that wherever new may be required that it be supplied, and wherever repairs may be necessary, that they may be timely made.

Fence Corners.—Have all the bushes eradicated from your fence corners, as nothing bespeaks the neat and systematic farmer more than to see a clean line of fencing.

Sheds for Cattle.—If you have not put up sheds for your cattle, do it now by sending a few hands into the woods to prepare the materials. A few days' work will enable you to provide good dry quarters for your stock. Let the sheds face the south, and their floors be somewhat higher than the yard, so as to preserve a dry surface.

Stables for Horses.—Have your stables cleaned out daily, that your horses may be able to breathe pure air. Sift them not in the quantity of straw for bedding, for recollect that for every pound you give them for such purposes, they will return you four. Don't be content to tell your servants to attend to this duty, but see to it yourself. A daily visit to your stable, will pay you well, at the end of winter, in the improved condition of your horses.—See that their troughs are cleaned twice a week by being washed with ley made from wood ashes, or with lime-water.—See that they are salted twice a week. See that they receive half a pint of luscious meal twice a month.

Sheep.—Shelter and bed your sheep—feed them with hay and roots, or oats, three days; salt them twice a week; keep a mixture of tar and salt in a trough where they can at all times get it; once a week throw them pine bows, and let them be watered twice daily.

Milk Cows.—As no man has a right to expect these animals to give either good or much milk, unless he feeds them well—see that in addition to three good feeds of hay or fodder, your milk cows receive also due proportions of succulent food of some kind, and be sure to give them salt twice a week.

Grating.—Hunt up your grating of every kind, repair and grease them carefully. One of the best mixtures for this purpose consists of 1 ounce of India Rubber, dissolved in a pint of Seneca Oil. Let the India Rubber be cut into fine shreds, and after being dissolved in the oil, have the grating well rubbed with it before a warm fire. This mixture, if rubbed on boots or shoes, will make them water proof, render the leather soft and pliable, and make it last as long again.

Composts.—Much valuable manure might be collected between this and spring by collecting mould and leaves from the woods, and mixing it layer and layer about with the stable manure, or by mixing with each load of mould and leaves one bushel of lime, and permitting it to remain in pile until spring. Any caris, horses, and hands thus occupied would be the most profitably employed on the farm.

Apparatus and Tools.—Those of every kind, should be looked after, and put in good repair, in readiness for use when wanted.

The Daily National Whig

PUBLISHED EVERY DAY IN THE City of Washington, at 8 o'clock, P. M.—Sundays excepted—and sent to subscribers in the City; at the Navy Yard in Georgetown, in Alexandria and Baltimore on the same evening, at 6 cents a week, payable to the sole Agent of the Whig, G. L. Gilchrist, Esq. or his order. It is also mailed to any part of the U. States for \$4 per annum, or \$2 for six months, payable in advance. Advertisements of ten lines or less inserted one time for 50 cents; two times for 75 cents; three times \$1; one week for \$1 75; two weeks for \$2 75; one month \$4; two months \$7; three months \$10; one year \$30—payable in advance.

THE NATIONAL WHIG is what its name indicates. It speaks the sentiments of the Whig party of the Union on every question of public policy. It addresses the attention to the Presidency of ZACHARY TAYLOR, subject to the decision of the Whig National Convention. It makes war to the knife upon all the measures and acts of the Administration deemed to be adverse to the interests of the country, and exposes without fear or favor the corruptions of the party in power. Its columns are open to every man in the country for the discussion of political or any other questions.

In addition to politics, a large portion of the National Whig will be devoted to publications upon Agriculture, Mechanic and other useful arts, Science in general, Law, Medicine, Statistics, &c. Choice specimens of American and Foreign Literature will be given, including Reviews, &c. A weekly list of the Patents issued by the Patent Office will likewise be published—the whole forming a complete family newspaper.

THE WEEKLY NATIONAL WHIG, is one of the largest newspapers in the U. States, is now made up from the columns of the Daily National Whig, and is published every Saturday for the low price of \$2 per annum, payable in advance. A double sheet of eight pages will be given whenever the press of matter shall justify it. The memoirs of Gen. Taylor, written expressly for the National Whig are in course of publication. They commenced with the second number, a large number of copies of which have been printed, to supply calls for back numbers. **CHARLES W. FENTON,** Proprietor of National Whig. Washington, Oct. 22, 1847.—6m (85)

DIAMOND TONSOR.

S. R. TIPTON, FASHIONABLE Barber and Hair Dresser, has removed his "Temple" to the diamond, adjoining the County Building, where he can at all times be found prepared to attend to the calls of the public. From long experience he flatters himself that he can go through all the ramifications of the tonsorial departments, with such an infinite degree of skill as will meet the entire satisfaction of all who submit themselves to the keen ordeal of his razor. He hopes, therefore, that by attention to business and a desire to please, he will merit as well as receive a liberal share of public patronage. The sick will be attended to at their private dwellings. Gettysburg, June 25.—1f

Protection against Loss by Fire.

THE Cumberland Valley Mutual Protection Company, being incorporated by an Act of the Legislature, and fully organized and in operation under the direction of the following Board of Managers, viz: T. C. Miller, James Weakly, D. W. M'Callough, A. G. Miller, T. A. McKinley, Philip Spangler, Samuel Gullberg, Samuel Trutt, A. B. King, (Adams), John Zug, Samuel Houston, J. H. Green, J. Bear—call the attention of the inhabitants of Cumberland and Adams counties to the cheapness of the rates, and the many advantages which this kind of insurance has over any other.

1st. Every person insured becomes a member of the company and takes part in the selection of officers and the direction of its concerns. 2d. For insurance no more is demanded than is necessary to meet the expenses of the Company, and indemnity against losses which may happen. 3d. The inconvenience of frequent renewals is avoided by insuring for a term of five years. 4th. Any person applying for insurance must give his premium note for the cheapest class at the rate of five per cent., which will be \$50 on the 1000, for which he will have to pay \$250 for five years and \$1 20 for survey and policy, and on more or less loss be sustained to a greater amount than the (time and expense) cover, and then no more than a pro rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles. **A. G. MILLER, Secretary.**

The following named persons have been appointed Agents for Adams County—Wm W Paxton, Esq. General Agent for Adams county; J. A. Thompson, Esq. Agent for Gettysburg; Dr. Wm R. Stewart, Petersburg; Henry Myers, New Chester; Henry Mayer, Abbottstown; Daniel Cooper, Strasburg township; Abraham King, Huntersburg; David Blythe, Fairfield; T. T. Wiseman, Roundville; Wm. C. Miller, Gettysburg; J. B. Henderson, Dr. D. Mellinger, East Berlin; A. B. Scott, Cashtown. Sept. 13, 1846.—1f

Dr. C. W. Appleton's Celebrated Remedy FOR DEAFNESS. PAINS, and discharges of matter from the ears, together with all other unpleasant symptoms, which either accompany or announce approaching Deafness. This invaluable medicine is the result of a long and faithfully pursued course of experiments instituted with the sole view to discover (if possible) a certain, and, at the same time, a safe remedy for this dreadfully affecting disorder, and after being extensively used in the private practice of the subscriber during the last eight years, in very numerous cases with the most remarkable success, is now offered to the public, for the benefit of those who, from distance or other causes, cannot have the personal attention of the proprietor, in the fullest confidence of its efficacy, and in the firm belief that it will exceed the expectations of those who may have occasion for its use; in short, that it is the most VALUABLE article ever offered to the public for this disease.

For sale in Gettysburg by S. H. BUEHLER, in Abbottstown by Wm. BITTINGER, in Oxford by LILLY & RILEY, and in Franklin township by THOMAS J. COOPER. [Aug. 6, 1847—1y]

DYSPEPSIA, And all Diseases of the Stomach and Bowels.

DYSPEPSIA, or Indigestion and its consequences.—An eminent Professor says: "It chiefly arises in persons who lead either a very sedentary or irregular life: Although not regarded as a fatal disease, yet, if neglected, it may bring on incurable Melancholy, Jaundice, Madness, or Vertigo, Palsy, and Apoplexy. A great singularity attendant on it, is that it may and often does continue a great length of time without any remission of the symptoms."

CAUSES.—Grief and uneasiness of mind, intense study, profuse evacuations, excess in venery, excessive use of spirituous liquors, tea, tobacco, opium and other narcotics, immoderate repletion, over distention of the stomach, deficiency in the secretion of the bile or gastric juice, exposure to cold and damp air, are the chief causes of this disease.

SYMPTOMS.—Loss of appetite, nausea, heart-burn, acidity and flat eructations, gnawing of the stomach when empty, uneasiness in the throat, pain in the side, costiveness, chilliness, languor, lowness of spirits, palpitations, and disturbed sleep.

TREATMENT.—DR. ALLEN'S VEGETABLE COMPOUND has never failed in affording immediate relief and a radical cure for this disease. Principal Office, No. 77 N. Eighth st., east side, Philadelphia. For sale in Gettysburg by **S. S. FORNEY.** July 30, 1847.—1y

THE DAILY NEWS.

THE unexampled success which has thus far attended the News Establishment, encourages the proprietors to spare no exertions to make the Daily News a paper which shall be second to none of its contemporaries in Philadelphia. It will make its special aim to impart a dignified and high moral tone to the paper, and to exclude from its columns every thing of an indecent or offensive nature. They have the most ample resources, in every respect, to enable them to give to its readers the latest and most accurate local, foreign and domestic intelligence, and also full and reliable accounts of the Markets and Commercials generally.

The Daily News will continue to advocate Whig principles as originally expounded by the Fathers of the Constitution, and adopted by the accredited organs and champions of the party at the present day. It is published in support of a Whig National Convention for the purpose of nominating candidates for the Presidency and the Vice Presidency, and will battle with all the ability, zeal and energy it can command, to secure the triumphant election of the nominees of that Convention.

In addition to politics, a large portion of the National Whig will be devoted to publications upon Agriculture, Mechanic and other useful arts, Science in general, Law, Medicine, Statistics, &c. Choice specimens of American and Foreign Literature will be given, including Reviews, &c. A weekly list of the Patents issued by the Patent Office will likewise be published—the whole forming a complete family newspaper.

THE WEEKLY NATIONAL WHIG, is one of the largest newspapers in the U. States, is now made up from the columns of the Daily National Whig, and is published every Saturday for the low price of \$2 per annum, payable in advance. A double sheet of eight pages will be given whenever the press of matter shall justify it. The memoirs of Gen. Taylor, written expressly for the National Whig are in course of publication. They commenced with the second number, a large number of copies of which have been printed, to supply calls for back numbers. **CHARLES W. FENTON,** Proprietor of National Whig. Washington, Oct. 22, 1847.—6m (85)

DIAMOND TONSOR.

S. R. TIPTON, FASHIONABLE Barber and Hair Dresser, has removed his "Temple" to the diamond, adjoining the County Building, where he can at all times be found prepared to attend to the calls of the public. From long experience he flatters himself that he can go through all the ramifications of the tonsorial departments, with such an infinite degree of skill as will meet the entire satisfaction of all who submit themselves to the keen ordeal of his razor. He hopes, therefore, that by attention to business and a desire to please, he will merit as well as receive a liberal share of public patronage. The sick will be attended to at their private dwellings. Gettysburg, June 25.—1f

DR. CULLEN'S

Indian Vegetable Panacea, DR. CULLEN AGAIN VICTORIOUS! **WARD & WALTON,** Philadelphia—1y. **GUESTS.**—In justice to you as well as a duty I owe the public, I feel constrained to furnish a short statement of the wonderful sufferings of my son William, and many who read this testimonial will be surprised to find the herbs still living, and still more so, when they learn that he has entirely recovered from the dreadful Scrofula with which he has so long suffered.

It is now more than four years since the disease first manifested its appearance on one of his legs, in deep and running ulcers. These continued more than two years, confining him to his bed, during which several pieces of the bone came away. It then attacked his arm, causing severe ulcers. Several pieces of bone came from the arm also. In this time (two years and six months) he was under the treatment of thirty of our best physicians, (and took some thirty or more bottles of Sarsaparilla and many other purgatives).
