

AGRICULTURAL

FROZEN MANURE.—We cannot doubt that fresh manure is much injured by hard frosts in winter. In most cases the manure from neat stock is thrown out at the windows, where it is soon frozen, and it undergoes alternate changes of freezing and thawing through the winter.

How to MAKE GOOD BREAD.—During the "small loaf" excitement, somebody, in a communication sent us, remarked that every housekeeper did not know how to make bread. We copy, for the benefit of those persons as well as the rest of the community, the following recipe, which the Trenton News says has been successfully tested for making loaf bread.

CURIOUS FACT.—It has lately been discovered that the flesh of animals which are killed in the middle of the night, will keep much longer than it will when they are killed in the day time; and it is, for this reason, preferred by those who prepare "rotted meats."

A BIT OF HONOR.—We do not relish truth less for being occasionally spiced with a little humor. The following extract from the report of a committee on Hogs, read before an Agricultural Society "down East," contains some excellent hints:

Notwithstanding their heretofore notions hogs have some excellent traits of character. If one chances to wallow a little deeper in some mire hole than his fellows, and so carries off and comes in possession of more of this earth than his brethren, he never assumes an extra importance on that account; neither are his brethren stupid enough to worship him for it.

And when a hog has no merits of his own, he never puts on aristocratic airs, nor claims any particular respect on account of his family connections; and yet some hogs have descended from very ancient families. They understand, full well, the common sense maxim, "every tub must stand upon its own bottom."

RECEIPTS ON SYMPATHETIC INKS. 1. Write on paper with a diluted solution of muriate of copper; when dry it will not be visible, but on being warmed before the fire, the writing will become of a beautiful yellow.

2. Write with a solution of muriate of cobalt, and the writing, while dry, will not be perceptible; but if held towards the fire, it will gradually become visible; and if the muriate of cobalt be made in the usual way, the letters will appear of an elegant green color.

3. Write with acetate of cobalt, or with a muriate of cobalt, previously purified from the iron which it generally contains. When the writing is become dry, these letters will also be invisible. Warm the paper a little, and the writing will be restored to a beautiful blue.

4. Draw a landscape with Indian ink, and paint the foliage of the vegetables with muriate of cobalt, and others with muriate of copper. While this picture is cold it will appear to be merely an outline of a landscape or water scene; but when gently warmed, the trees and flowers will be natural colors, which they will preserve only while they continue warm. This may be often repeated.

TO THE AFFLICTED!

Compound Medicated Candy. FOR THE CURE OF Colds, Coughs, Spitting of Blood, Bronchitis, Asthma, Whooping Cough, Pains and Oppressions of the breast, and all other Pulmonary complaints, and other diseases which have a tendency to produce Consumption. It serves also as an actual clearing of the voice.

This Candy is entirely a vegetable preparation, the principal ingredients being: Horse-radish, Wild Cherry, Sarsaparilla, Boneset, Elecampane, Licorice, Flaxseed, Iceland Moss, Prickly Ash, &c. and will, if taken in time, relieve the system from those distressing afflictions that tend to Consumption.

One great advantage in this valuable medicine is its cheapness, the public not being imposed upon by the enormously high prices which are generally exacted for Patent and other medical Preparations. Each package contains directions. Call and try it!

DIAMOND TONSOR

S. R. TIPTON, Dresser, has removed his "Temple" to the diamond, adjoining the County Buildings, where he can at all times be found prepared to attend to the calls of the public.

From long experience he flatters himself that he can go through all the ramifications of the tonsorial department, with such an infinite degree of skill as will meet the entire satisfaction of all who submit themselves to the keen order of his razor. He hopes, therefore, that by attention to business and a desire to please, he will merit as well as receive a liberal share of public patronage. The stick will be attended to at their private dwellings.

New Establishment.

HENRY SMITH, RESPECTFULLY informs the citizens of Gettysburg, and strangers who may tarry here until their beards grow, that he has opened a new saloon in the shop formerly occupied by Jason Lantz, in West York street, one door west of Paxton's Hat-store, where he intends prosecuting the Tonsorial business in all its varied and various branches. He will shave you as clean as a city Broker, and cut your hair to suit the cut of your head, and the cut of your piz. Then the whole object and desire is to improve the appearance of the human race. He who practices shampooing or removing dandruff, in which his friends have been pleased to accord to him the palm of superiority.

N. B. Gentlemen troubled with the Tetter will find an infallible cure by applying at his saloon.

DYSPEPSIA.

And all Diseases of the Stomach and Bowels. DYSPEPSIA, or Indigestion and its consequences.—An eminent Professor says: "It chiefly arises in persons who lead either a very sedentary or irregular life. Although not regarded as a fatal disease, yet, if neglected, it may bring on incurable Melancholy, Jaundice, Madness, or Vertigo, Palsy, and Apoplexy. A great singularity attending on it, that it may often continue a great length of time without any remission of the symptoms.

CAUSES.—Grief and uneasiness of mind, intense study, profuse evacuations, excess in venery, excessive use of spirituous liquors, tea, tobacco, opium and other narcotics, immoderate repletion, over distention of the stomach, deficiency in the secretion of the bile or gastric juice, exposure to cold and damp air, are the chief causes of this disease.

SYMPTOMS.—Loss of appetite, nausea, heart-burn, acidity and flatulencies, gnawing of the stomach when empty, uneasiness in the stomach, pain in the side, costiveness, chilliness, languor, loss of spirits, palpitations, and disturbed sleep.

TREATMENT.—DR. ALLEN'S VEGETABLE COMPOUND has never failed in affording immediate relief and a radical cure for this disease.

DR. CULLEN'S

Indian Vegetable Panacea, DR. CULLEN AGAIN VICTORIOUS. (BY) GWAN & WALTON, Philadelphia.—"Gentle—in justice to you as well as to my love the public, I feel constrained to furnish a short statement of the wonderful sufferings of my son William and many who read this testimonial will be surprised to find how long it took much persuasion from the friends who kept in his house as a "family medicine," to induce me to make use of it. He spoke so confidently, I gave it a trial; and I was not slow to make a trial of it, on the second attack he had been seized with, and on the first. I have prescribed the Carmine Syrup to a great many of my patients, and I am pleased to say, with the same good effects. You are at liberty to use this as you please. Your's, &c. Nov. 25, 1847. Wm. H. BUEHLER, in Abbotstown by Wm. Birtzinger, in Oxford by Lilly & Riley, and in Franklin township by Thomas J. Cooper."

Indian Vegetable Panacea.

It is now more than four years since the disease first appeared in the person of my son, and it has now run its course. These continued more than two years, confining him to his bed, during which several pieces of the bone came away. It then attacked his arm, causing severe pain, and he was unable to use it. He was then confined to the arm also. In this time (two years and six months) he was under the treatment of several of our best physicians, (and took some thirty or more bottles of Sarsaparilla and Iodine) and was pronounced by the best of them to be incurable. He was then under the recommendation of Mr. Hartzler, taken to "Will's Hospital," where he continued under the care of Dr. Parish, three months. He was then sent home as incurable.—It is to the credit of the other, that he broke out in open sores. Spirits of Tar was recommended by a friend—he took this about four months, without benefit—indeed he got worse when I may say he was up all night of his feet getting well; at this stage of the disease I had recourse to Dr. Allen's Compound Syrup of Tar & Wood Nymph. I had very little faith in it, I confess, (having tried so many medicines without benefit). He, however, commenced the use of PANACEA on the first of March, A. D. 1844, and has been using it ever since. Three months after he began the use of the Panacea, an ulcer made its appearance upon his neck above the collar bone. This continued open until about seven weeks, and he was cured. He is now sound, and in the enjoyment of perfect health. I gratefully add my testimonial to the many already in your possession, of the wonderful efficacy of your "DR. CULLEN'S INDIAN VEGETABLE PANACEA."

READ THE FOLLOWING.

Harrisburg, Nov. 18, 1845. Dr. S. P. Thompson—Dear Sir: I consider a grateful duty to publicly acknowledge the benefit I have derived from the use of your invaluable medicine, the Compound Syrup of Tar and Wood Nymph. In the spring of 1844, I was taken ill with bilious fever, and was very ill for a long time. After I had partially recovered my physicians informed me my lungs were affected, and treated me accordingly. I was, however, instead of getting better, I daily grew worse. I was finally informed by him that "I was incurable, and must die, and that nothing remained but preparation for another world." My weakness increased until I was confined to bed; I was very severe pains in my breast, side and back, shortness of breath, and I was so very hoarse that my voice could not be heard, unless the ear was applied close to my mouth. My cough was terrible, harassing me night and day, so that I could obtain very little rest. While suffering in this way, with no relief, I saw your advertisement in the "Union," of this borough, with the certificate of a lady of Philadelphia appended, who so fully described my case, that I resolved to try your medicine and its effect upon me. I accordingly sent to your agent, Dr. M. Pherson, and procured a bottle. I had not used more than one-third of it, before the hoarseness fell, and I then took it regularly; the pain in my breast, &c. I felt, the shortness of breath and cough was removed, and I am now able to walk about with renewed health and vigor. You can make what use of this you please. I am willing to give any satisfactory testimony that may be required of me if called on personally. With great respect, I remain yours, &c. JACOB SQUIRE, Jr.

This invaluable remedy is prepared by Dr. Anney & Dickson, N. E. Corner of Fifth and Spruce streets, Philadelphia, and can be had of the following Agents:

S. S. Forney, Gettysburg; R. Anney, Carlisle; C. P. Lange, Hanover; D. A. Morris & Co., York.

Price 50 cents, or \$1.00 per bottle. Beware of imitations. Jan. 14, 1848. [April 30, 1847.—ly]

AFFLICTED READ!—LET NONE DESPAIR!

ROSS' EXPECTORANT, FOR THE CURE OF Consumption, Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Spitting of Blood, Sore Throat, Pains and Oppressions of the Breast, Difficulty of Breathing, and all other diseases of the PULMONARY ORGANS!

THE public for several years, during which time the Proprietor has received numerous testimonials of its superior efficacy in the above mentioned complaints.

The following is an extract from the letter of a friend, dated Philadelphia, Jan. 28, 1848.

Dear Friend—The success of the Expectorant has exceeded all expectation. For instance, my friend Mrs. B.—I was suffering from a severe cold contracted some five or six weeks ago, during which time she had taken many highly recommended remedies, but without experiencing any benefit, until at my earnest solicitation, she consented to try "ROSS' EXPECTORANT" and was completely cured by the use of two bottles. The next patient was Miss E.—I visited her and found she had taken a severe cold, for the cure of which she had tried many remedies, but with no effect. I gave her one bottle of the Expectorant, and it cured her completely. The third cure was on B.—a lady who had taken a tremendous cold on account of exposure from running errands. Her cough was of no ordinary kind—she had been cured by a friend, your friend, C. W. G.

CAUTION!—In consequence of the many preparations now before the public under the name of "Expectorant," "Syrup," &c. and even of a similar name, the Proprietor deems it necessary to caution the afflicted against Counterfeiters. Each bottle of the genuine has the words "ROSS' EXPECTORANT—Improved—Baltimore, Md." blown in the glass; the initials "F. R. R." in connected capitals stamped on the seal, and my written signature on the wrapper, without which it cannot be genuine.
