In this medicine several innecess but very potent articles of the vegetable kingdom are united, forming a compound entirely different in its character and properties from any other preparation, and unrivalled in its operation on the system when labering ander disease. It blooks to be in the hands of every person, who, by business, or general course of life, is predisposed to the very many aliments that tender life a curse, instead of a blessing, and so often result in death.

FOR SCROFULA, Dr. Drake's Pamacas is recommercial as a certain curse. Not one instance

commended as a certain cure. Not one instance of its failure has ever occurred when freely used t cures the disease and at the same time imparts vigor to the whole system. Scrolulous persons can never pay too much attention to the state of their blood. Its purification should be their his aim; for perseverence will accomplish a cure of con hereditary disease.

FOR ERUPTIONS OF THE SKIN; Scurvy,

ase, and by removing it from a system, makes a cure certain and permanent.
INDIGESTION.—No medicine perhaps has ever been discovered which gives so much tone to the stomach and causes the secretion of healthy gastric juice to decompose the food as Dr.

Drake's Panacea.

RHEUEATISM.—Dr. Drake's Panacea is used with the greatest success in Rheumatic Com-plaints, especially such as are chronic. It cures by driving out all impurities and foul humours which have accumulated in the system, which are the cause of Rheumatism, Gout, and Swellings of the faints. Other remedies sametimes give temporary relief; this entirely eradicases the glacase from the system, even when the timbs and bones are dreadfully swollen.

CONSUMPTION can be cured. Coughs, Canada and Coughs, Canada and Canada

tarrh, Bronchitis, Spitting of Blood, Asthma, Difficult or profuse Expectoration, Hectic Flush, Night Sweats, Pain in the side, &c., have been cured, and can be with as much certainty as any other simple disease. A specific has long been sought for but in vain until the discovery of Dr. Drake's Panacea. It is mild and sale but certain and efficacious in its operation, and cannot possibly injure the most delicate constitution. We would earnestly recommend those afflicted to give it a trial—and we belive they will not have occasion to regret it. The system is cleaned and strengthened, the ulcers on the lungs are heated, arrengement, one uncers on the lungs are heated, and the patients gradually regain their usual health and strength. Read the following testimony Philadelphia, Ddc. 14th, 1817.

DEAR SIR:—In reply to your question respecting the use of Dr. Drake's Panacea, I will say, that although a strength of the latest and the second of the latest and the second of the latest and latest and

that although a perfect disbeliever in the existence of a Panacra, or cure for all diseases, however valuable it may be in certain conditions of the system, still I have believed that a cure for Consumption would be discovered sooner or later, and curiosity led me to try your medicine in two very inveterate cases. They were pronounced by the attending physicians to be Publickant consumerion, and abandoned by them as incurable. One of the persons had been under the treatment of several very able practitioners for a number of years, and they said she had "old fushioned Con-sumption combined with Scrofula," and that she might linger for sometime, but could not be per-manently relieved. In both cases the effect of the Panacea has been most gratifying. Only lour or five bottles were used by one of the persons before she began to improve rapidly. The other took about ids. I will only add that familiar as I um with consumption by inheritance and by exten-sive observation as a study, and knowing also the injurious effects in nine cases out of ten of tar, boneset, and other vegetable tonics, as well as of many of the expectorants and solutives, I should never have recommended the use of Dr. Draka's Panacea if I had not been acquainted with the ingredients. Suffice it to say that these tine physicians, and in their present combined in the best manner and on state form probably the best alterative that has reasonable terms. The ever been made. The cure is in accordance with a theory of Consumption of the most eminent writers on medicine, and now established by facts a theory of Consumption broached in France a

which admit of no dispute. Very respectfully yours,

To use the language of another, "Dr. Drake's Panacea is always salutary in its effects—never injurinus. It is not an Opiate—it is not an Expectorant. It is not intended to full the invalid into a fatal security. It is a great remedy -a grand healing and curative compound, the great and only remedy which medical science and skill has yet produced for the treatment of this hither-to unconquerable malady. And no person afficted with this dreadful disease, will be just to him self and his friends if he go down to the grave without testing its virtues. A single bottle, in most cases, will produce a favorable change in

the condition of any patient, however low." TO THE LADIES,-Ladies of pale complexion and consumptive habits, and such as are de-bilitated by those obstructions which females are the expectations of those who may haveoccasion two, to bloom and vigor. It is by far the best remedy ever discovered for weakly children, and BLE article ever offered to the public for this disuch as have bad humors; being pleasant, they take it. It immediately restores the appetite

strength and color.

Nothing can be more surprising than its invig orating effects on the human frame. Persons al weakness and lessitude before taking it, at once ESPECTFULLY informs his friends become robust and full of energy under its influence. It immediately counteracts the nerveless ness of the female frame.

BALTIMORE, Dec. 22, 1847.

Mr. James F. Ross-Sir-It is with pleasure that I make to you the following statement o the efficacy of your Expectorant in my case hoping that others similarly afflicted may be in duced to use it as I was: For several months past I have suffered with severe oppression of the breast. Through the day I would feel but little of it, but at night it would trouble me considerably, and in the mornings my throat would be dry, and the phlegm would rattle on my breast, but all efforts to remove it were of no a vail. A triend who had used your Expectoral advised me to try it, which I did, and am happy to inform you that I have been cured by the use of one bottle. The first few doses loosened the phlegm, which came up in large quantities, and by the time I had taken the whole of it, I felt like

another person.
