Coughs, Catarrh, Bronchitis, Spitting of Blood, Asthma, Difficult or protuse Expectoration, Hectic Flush, Night Sweats, Pain in the side, &c., have been Mr. William Flemmin. cured, and can be with as much certainty as any other simple disease. A specific has long been sought for but in vain until the discovery of Dr. Drake's Panacea. It is mild and sale but certain Drawe's ranacea. It is mind and some outcomes and efficacious in its operation, and cannot possibly injure the most delicate constitution. We would earnestly recommend those afflicted to give it a trial-and we belive they will not have occaon to regret it. The system is cleansed and s rengthened, the ulcers on the lungs are heated, and the patients gradually regain their usual health and strength. Read the following testimony

Philadelphia, Ddc. 14th, 1847 DEAR STR .- In reply to your question respecting the use of Dr. Drake's Panacea, I will say, that although a perfect disbeliever in the existence a Panacea, or cure for all diseases, however valuable it may be in certain conditions of the systom, still I have believed that a cure for Consumption would be discovered sooner or later, and ASHIONABLE Barber and Hair Dresser, has removed his "Temple" attending physicians to be PULNONARY CONSUMP. Troy, and abandoned by them as incurable. One of the persons had been under the treatment of several very able practitioners for a number of years, and they said she had "old fushioned Con-sumption combined with Scrofula," and that she that he can go through all the ramifications might linger for sometime, but could not be permanently relieved. In both cases the effect of the Panacea has been most gratifying. Only four or five bottles were used by one of the persons before she began to improve rapidly. The other took about ten. I will only add that familiar as I am with consumption by inheritance and by extensive observation as a study, and knowing also the injurious effects in nine cases out of ten of tar, boneset, and other vegetable tonics, as well as of many of the expectorants and sedatives, I should never have recommended the use of Dr. Drake's Panaces if I had not been acquainted with the ingredients. Suffice it to say that these mended by our most popular and scienstate form probably the best alterative that has ever been made. The cure is in accordance with a theory of Consumption broached in France a few years ago by one of her most eminent writters on medicine, and now established by facts which admit of no dispute. Very respectfully yours,

L. C. GUNN. To use the language of another, "Dr. Drake's

Panacea is always salutary in its effects—hever injurious. It is not an Opiate—it is not an Expectorant. It is not intended to full the invalid into a fatal security, It is a great remedy a grand healing and curative compound, the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. And no person afflicted with this dreadful disease, will be just to him. self and his friends if he go down to the grave without testing its virtues. A single bottle, tin most cases, will produce a favorable chenge in the condition of any patient, however low."
