July 28: 18 (8 .-- 3) MANKIND have now the means in their own hands of restoring themselves to health with they be wise in time?-

Who can tell? N individual only wishes to know the right way to pursue it; and there are none, were ly made known how life might be prolonged and health recovered, who would not adopt the plan. Evidence is required, that the right way is discovered. This is what those suffering from sickness ment to be satisfied about. For who is na not to enjoy all the health his body is apable of! Who is there that would not live he discrepance can so much benefit himself & properties of the most useful members of society die the same the ages of thirty and forty. How many widows and helpless orphans have been the consequence of mankind not having in their ore power the means of restoring health when lost. THE CAUSE OF DISEASE.

Now when we are afflicted with sickness, it ariseth from the Natural Powers of the body not having sufficient strength, in the Natural Course of the System, to expel those matters or hu which have become undess, and whose detention must produce injury to the organizm must produce tijury to the organizm. For in-stance, the propertie closed from checked peripira-tion: in this case, what should have passed out of the budy hydrin ports of the skin are thrown back upon the blood; the blood thus clogged in its circulation, remedies the evil by throwing the impurities which should have passed by the skin, upon the organs of the stomach and bowels. Now if the stomach and bowels are very healthy and strong, they expel the humors which the checked pursuiration caused to be retained in the body and no harm is done. But, if the stomach and bowels do not happen to be in this healthy condition-if, for instance, the howels should be in a costive or bound state, the matters of their own as well as those received from the occasion of check ed perspiration; are again taken up by the blood; and this Fluid of Life may be so impeded as to produce apoplexy or paralosis; or it may become If the: Lungs have been previously affected, then ndammation of the Lungs; if the heart, then Ancurism, pr some affection of the heart, or Angina Pectoris; if the brain has previously suffered, then inflammation of the brain. If an injury has he n done in time past to the body, and the part where such was done continues weak, then that part will be affected. If Asthma has ever been a revailing complaint, it will show itself again -Phose who have been much troubled with Fever and Ague will be again affected by it, or some intermitting Fever will take its place. If it be child, then the Measles. Whooping Cough, Small Pox or Scarlet Fever may be expected. The Intpurities which are striving to get out, but are not able without sessistance will produce that form of disease which the person having these impurities in him, is most susceptible to receive.

Now all these dangers and difficulties can be

ons. This medicine, if taken so as to purce fieely, will surely cure any curable disease, and large practice, and if the remedies and There is no form or kind of sickness that it does commendations of medical authority are to not exert a curative influence upon. Thus, by their power in resisting putrefaction, they cure Measles. Small Pox, Worms, and all contagious fevers. There is not a medicine in the world so able to purity the mass of the blood and restore it althy condition as the Brandreth Pills -This makes them so valuable in curing all kinds of chronic diseases, as Eryspelas, Salt Rheum, Mild Mond, White Swellings, Sore Eyes, and recent or Chronic, enlargement of the Glands or otherwise. Perhaps the Brandreth Pills are one of the most powerful remedies in nature for the cure of Rheumatism and old diseases of the skin and bones; for they open and penetrate into the immost recesses of the body, and drive out all maint humors. They dissolve coagulated blood, and cure inflammations of all kinds, whether of the Their power is so great over the brain and the nerves, that Palsics and convulsions, (both in r and child,) and insanity are cured by them. n fact, let any one suffering from sickness us tised to be appreciated. By their use alune, all Chronic diseases could soon be banished from among us. Those whose prejudices will permit them, will find the BRANDRETH PILLS They should be in every house. They may be justly termed the Safety Valve of disease.

Dasa Sia:—In reply to your question respecting the use of Dr. Drake's Panacea, I will say. that although a perfect disbeliever in the existence of a Panacca, or cure for all diseases, however valuable it may be in certain conditions of the eys-tom, still I have believed that a cure for Con-sumption would be discovered scoper or later, and curiosity led me to try your medicine in two very inveterate cases. They were pronounced by the attending physicians to be PULMONANT COMMUNE TION, and abundoned by them as incurable. One of the persons had been under the treatment of several very able practitioners for a number of years, and they said the had "old fashioned Consumption combined with Scrafula," and that she might linger for sometime, but could not be sie Panacea has been most gratitying. Only lour or five bottles were used by one of the persons before she began to improve rapidly. The other took about ten. Twill only add that familiar as I am with consumption by inheritance and by extensive observation as a study, and knowledge age of the iniurious effects in nine cases out of ter eset, and other vegetable tonics, as well as of many; of the expectorants and redatives, should never have recommended the use of Dr. Drake's Panacea if I had not been sequelated with the ingredients. Suffice it to say that thes are recommended by our most popular and scien tific physicians, and in their present combined state form probably the best alterative that has ever been made. The cure is in accordance with a theory of Consumption broached in France a few years ago by one of her most eminent wri-ters on medicine, and now established by facts which admit of no dispute. Very respectfully yours, L. C. GUNN.

To use the language of another, "Dr. Drake's

Panacea is always sklutary in its effects—never injurious. It is not an Opiate—it is not an Expectorant. It is not intended to tall the inva into a fatal security. It is a great remedy—a grand heating and curafive compound, the great and only remedy which medical science and skill has yet produced for the treatment of this hither self and his friends if he go down to the grave without testing its virtues. A single bottle, in most cases, will produce a favorable change in the condition of any patient, however low."

TO THE LADIES.—Ladies of pale complexion and consumptive kabits, and such as are de-bilitated by those obstructions which temules are liable to, are restored by the use of a bottle or two, to bloom and vigor. It is by far the best remedy ever discovered for weakly children, and such as have bad humors; being pleasant, they take it. It immediately restores the appetite,

strength andcolor. Nothing can be more surprising than its invigorating effects on the human frame. I lersons all weakness and lassitude before taking it, at once become robust and full of energy under its influince. It immediately counteracts the nerveless-

ness of the female frame.
