tent for an Improved Machine for Hulling and Clean

ing Clover-seed, which, for thoroughly performing its work, in a speedy manner, surpasses any thing that has ever been presented to the public In order to produce a machine that will meet the wants of the community in every respect, the Patentee has for several years applied himself diligently to the task, and now enabled to offer a machine worthy,

of their consideration. This machine has only been in opera ion during the last season, in Cumberland, York and Adams counties, and has given entire satisfaction. It is theat, portable machine, only weighing about 400/ lbs. and of light draught, and can hull and cloats with ease four loads of clovereed per day! or one load in two hours. It can be conment's time. Persons desiring to parchase rights can see the machine by call? Adams cpauge Owners of Clover-would find it to their advantage to give a a entt. Hundreds of certificates can be given of its suility, and the satisfactory manner that

it hulls and closus glaverseed, and also timothy seed, but I deen it only necessa-ry to refer to a few judiciduals at whose barns the machine has been eshibited and fully tested. Husrisofos rr. Jas. M'Elwee, Esq. George Dearlorff, Esq. Benjamini Shelty. Wilham Wright
