It is the greatest medicine of the age, and will permanently cure more dis eases of those organs than all the remedies before the public. This is neither boast or fiction, bu facts—examples can be furnished. Mother ave your child, do not let prograstination steal its life away-it will cure every case. Read this evidence, and doubt no more:

F om the Upland Union, Jane 21, 1848. We are as little disposed as most persons encourage appeals to law or medicine, but with all the legerdemain of the first, and the jgnorance and quackery of the last, appeals must occasion-ally be made to both. The excessive heat and and the accompanying productions of the season are already producing Diarrhica, Dysentery, and Cholera Infantum, complaints which, if not promptly relieved, produce great debility and fre-death. From a knowledge of its beneficial effects, we refer to Dr. Koeler's Cordial and Carminative. Dr. Keeler is a physician of intelligence, skill and large practice, and if the remedies and recommendations of medical authority are to be depended on, the above named article will be found useful in the complaints referred to.

From Neal's Gazette, August 28, 1647. Dr. Keeler's Cordial.—We would call the at tention of our readers to this invaluable medicine which will be found advertised at length in our columns. As a corrective in cases of Diarrhona, a disease very prevalent at the present time, it is highly spoken of by all who have used it. It is S. H. BUEHLER. Getryaburg, COOK & ZELLER, Mercerebarg.

From the Penusylvanian, Sept. 1, 1847. article is advertised in another part of our paper, it is warmly recommended by lamilies who have tried it. It is especially useful among children. and has effected hundreds of cures. The doctor is abundantly supplied with testimony upon the subject, some of which is very strong. The Cordial is not a quack nostrum, but a carefully prepared medicine, and perfectly free from any thing injurious.

This will Certify, that I have examined Dr. Keeler's Cordial, and have ascertained its compopont parts, and consider it a good family med-icine; and worthy the attention of mothers and formers, and consider they would do well to me nurses, and communities tain it in their families.
