I will only add that familiar at I am with consumption by inheritance and by exter-sive observation as a study, and knowing also the injurious effects in nine cases out of ten of tai, boneset, and other vegetable tonics, as well as the changes of temperament and contagious in of many of the expectments and fedatives. should never have recommended the nee of I Drake's Panaces at I had not been acquainted Mammert's farm, on the said Oxford distributing can be in a great measure removed, with the ingredients.
