#### GREAT BUSTIFICATION OF STEAM WORKS! and Engineer seriously Wounded!

BE it known to the world, that the undersigned has obtained Letters Pa-Improved Machine for Hulling and Clean

ing Clover-seed. which, for thoroughly performing its work, in a speedy manner, surpasses any thing hat has ever been presented to the public In order to produce a machine that will meet the wants of the community in every respect, the Patentee has for several years applied himself diligently to the task, and now enabled to offer a machine worthy of their consideration.

This machine has only been in operation during the last season, in Cumberland, York and Adams counties, and has given entire satisfaction. It is a next, portable machine, only weighing about 400 lbs. and of light draught, and can hull and clean with ease four loads of cloverseed per day, or one load in two hours. It can be converted into a common windmill in a moment's time. Persons desiring to purchase rights can see the machine by calling at my residence in Latimore township, Adams county. Owners of Clover-mills would find it to their advantage to give me a call.

Hundreds of certificates can be given of its utility, and the satisfactory manner that it hulls and cleans cloverseed, and also timothy seed, but I deem it only necessary to refer to a few individuals at whose barns the machine has been exhibited and fully tested.

A SCIENTIFIC MEDICINE.—Great expe rience and judgment are required to make a val-uable, and at the same innocent purgative. This

is possessed only by a few.

The great majorities of the remedies advertisfriends of the Sabbath in the counties of ed of this class, are manufactured by persons Franklin, Perry, Dauphin, Cumberland, who have no idea of the relative or individual powers of the drugs they use. It is this cause more than any other, which occasions the inertness and often injurious effects, produced by advertised remedies. And hence the general prejudice which prevails against them. Now there is a great difference in this respect, with regard to the pills made by Dr. B. Brandreth, and consequently their superior claims upon the public — Each of the articles composing the Brandreth Pills, are prepared in that way which will secure their beneficial effects to the system in the safest and essiest manner. For instance, some ingredients have to be prepared in the vacuo; that the air is exhausted in the utensil and remains so until a combination is effected with other in gredients, which afterwards prevents the air greatents, which atterwards prevents the air from acting injuriously upon the medicine. Again, the proportion for each ingredient depends upon its multiplying power upon other ingredients. For the power of different vegetable pur-

gatives upon each other, is governed by simila laws that govern the power of figures by multi-plication. Nine added to nine makes eighteen out nine times nine are eighty-one. So it is with some vegetable purgatives. By adding nine parts of one ingred ent, and nine parts of another ingredient together, the power is increased, not to eighteen, but to eighty-one. For example, either of the articles to produce any purgativo effect, would have to be used to the extent of eighty-one grains; by combining them only eighteen grains have to be used. Again, another ingredient is found to multiply this power again to be found at STEVENSON'S. Go ness and a desire to please, he will merit town; Shorb and Johnson, Emmitshin which in a proportion of two grains, would have and see them. which in a proportion of two grains, would have no effect upon the animal economy, but which, added to eighteen grains of a composed of two parts of nine grains, each of two ingredients, will again multiply the power which they have gained of eighty-one, to one hundred and sixty-two. So again, the mixture of twenty grains, to the power of three hundred and twenty-four grains, of the priginal nower of two first ingregrains, of the original power of two first ingredients. Here we have twenty-two grains which as a purgative, centain the power equal to three hundred and twenty-four grains of either of the articles alone; nevertheless also so powerful af-ter being thus combined are safe in any quantity;

always having a beneficial effect and in no case capable of doing injury, of which thousands bear ample witness ampie witness.

FOR SCROFULA, Dr. Drahe's Panacea is recommended as a certain cure. Not one instance of its failure has ever occurred when freely used it cures the disease and at the same time imparts igor to the whole system. Scrotulous persons can never pay too much attention to the state of their blood. Its purification should be their first im; for perseverence will accomplish a cure of even hereditary dinense.

and Biles, Dr. Drake's Panacea cannot be too highly extelled; it searches out the very root of lisease, and by removing it from a system, makes a cure certain and permanent.

INDIGESTION.—No medicine perhaps has ever been discovered which gives so much tone to the stomach and causes the secretion of

healthy gastrie juice to decompose the food as Da Drake's Panacea.

It cures by driving out all impurities and foul humours which have accumulated in the system, which are the cause of Rheumstism, Cout, and bwellings of the joints. Other remedies sometimes give temporary relief; this entirely evadurates the disease from the system, even when the limbs and

bones are dreadfully swollen.
