Peterson. G.S. Burleigh, C.H. Wiley, J.R. Chandler, Mrs Brotherson, Prof. Alden, Anne C. Lynch, Mrs Kirkland, and Rev. W. H. Furness, D.D.

THE public are already aware that the Union Magazine has changed residence, as well as changed hands, since the publication of the December number, Mesers, Sartain and Sloanaker having purchased it of the former proprietors and transferred its place of publication from Na. York to Philadelphia. In addition, also, to the services of Mrs. Kirkland, who will continue as heretofore to contribute to its pages, the proprie-eters have engaged, as an associate Editor, Prof. John S. Hart, of Philadelphia. It is confidently believed that the patrons of this

Magazine will find signs of improvement, as well Magazine with fird signs of improvement, as well as change. Its external appearance is improved. For evidence of this the reader need only look for himself. In the pictorial department, the Magazine may now fearlessly challenge comparison with long of the side. with any of its rivals.

In respect to the LITERARY character of the Magazine, it will be the earnest endeaver of left concerned in its publication to secure for it the contributions of the best, writers that the country of the contributions of the best. try affords. The proprietors have already entered into arrangements for articles from almost which they offer what they claim to be very re spectable "first fruits," in the present number.

AN ORIGINAL NOVEL.

A special feature for the present volume wid be the publication of an Original Novel, the manuscript of which has been purchased for the pur pose. The publication of this novel will com mence in the taird number, and will in no cuse be extended into the succeeding year, even nithough a extensed into the successing year, even authorized large number of exita pages have to be printed to bring it to a conclusion before the close of the volume. This novel will open to the reader a new field of American traditions, entirely untouched by Irving, Cooper, or any of our writers of historical fiction. The stene of the story is in North Carolina, just prior to the Revolution provements in his method of casting and it embodies in the form of an entertaining fictitious narrative a mass of historical traditions ough revision of matrices, the faces of respecting the early settlement of the Catolinas, which are not excelled, in beauty and re. which, if we mistake not, will give quite a new gularity of cut, by any in the country; aspect to that part of our sational history. Brandreth, and consequently their superior claims upon the public - Each of the articles composing the Brandreth Pills, are prepared in that way which will secure their i-enercial effects to the system in the safest and easiest manner. For instance, some ingicdients have to be prepared in the vacuo; that it the sir is exhausted in the uten-il, and remains so until a combination is effected with other ingredients, which atterwards prevents the six from acting injuriously upon the medicine. A gain, the proportion for each ingredient depends upon its multiplying power upon other ingre-dients. For the power or different vegetable purdients. For the power of different vegetable purgatives upon each other, is governed, by similar laws that govern file power of figures by midd plication. Night sidded 2d june makes eighteen; but nine times nine are eighty-one. So it is with some vegetable purgatives. By adding nine parts of one ingredient; and nine parts of another installant together, the mover in present another ingredient together, the power is increased, not to eighteen, but to eighty-one. For example, either of the articles to produce any pur-gativo effect, would have to be used to the extent feighty-one grains; by combining them onl eighteen grains have to be need. A gain, another ingredient is found to multiply this power, again which in a proportion of two grains, would have no effect upon the animal economy, but, which sidded to eighteen grains of a compound of two parts of nine grains, each of two ingredients, will again multiply the power which they have will again muttiply the power which they have gained of eighty-one, to one hundred and sixty-two, 'So nighto' the mixture of twenty grains can be multiplied by an addition of two grains, to the power of the briginal power of two first ingredients. Here we have twenty-two grains, which as a nurally eldontain the nower existly to three

as a purgative, dontain the power estall to three as a purgative, contain the power equanto tured hundred and tweety-four grains of oither of the articles alone; nevertheless also to powerful after being thus combined are safe in any quantity; always having a beneficial effect and in no case capable of doing injury, of which thousands bear amole witness.
