MESSER, EDITORS-

We have at length arrived at the far famed vallev of the Wyoming. Meeting with the Susquehanna at Harrisburg, we followed it in all its age. windings as far as Wilkesbarre, and found the ecenery along its banks a sufficient recompense for all the toil and fatigue of a long pedestrian excursion. At this season of the year, the scenery stong the river is unusually attractive. Nature, decked in her gayest attire, causes every thing to appear bright and beautiful. BRINGING IN THE NEW YEAR IN A PANTHER HUNT. INCREDIBLE as the following account may appear to our readers, the incidents

In a certain section of our own goodly state, the first settlers were obliged to depend, for a part of their subsistance, upon the wild animals they might take with the aid of their trusty rifles. Many of them could eye a rifle, or take a shot of whiteeye (corn whiskey) without blinking;

In the automn, after the leaves had falen as a light snow lay upon the ground, our hero, who rejoiced in the cognomen of "Cal," (Calvin shortened,) started, with grand and sublime prospect presents itself at Dun- two companions and a dog, to spend an can's Island.
