Kingsbridge, September 19, 1845. Dr. C. V. Clickener: Dear Sir :-- Some time last summer I was

very suddenly seized with an extra ordinary several days without any apparent cessation .----

Indeed, the symptoms were so violent, that scarcely had time to ascertain their cause of think about applying a remedy. I perceived that my pulse was much more rapid than common. Sometimes I was tormented by immod erate thirst, and, occasionally, a strong inclina-

tion to vomit, without being able to raise any-thing. I found no difficulty, however, in eating, ugh it seemed, after all, to do me no good although it seemed, anter an, to do me no good. My strength failed me very fast, and my stools were invariably accompanied by discharges of blood. The complaint proved to be dysentery of the very worst type. One recommended me to call in a physician; another, to try Lee's bits. while while during the store of the second stor Pills; while a third advised me to try something

eise. I chose, however, to prescribe for myself. I had heard a great deal about the virtues of your Sugar Coated Vegetable Pills from several of my neighbors; and therefore concluded, if

had cured others, there was no reason why they should not cure me. A done or two soon convinced me that my conclusion was cor-rect. I found the mildness of their operations particularly adapted to complaints of this na ture. The change in my feelings was gradual, but none the less certain. The symptoms be-

gan to abate after the second or third dose. My strength returned; and the third or fourth box me restored to my accustomed beaith, found which has always been remarkably good.
