LIFE SAVED—AWFUL CASE OF SCALD!

Wheatfield, Niagara Co., N. Y., February 28, 1848 Mr. Dalley-Dear Sir-While my son, 16 years of age, was at work in the shingle manu-lactory of L. P. Rose, he had the mistortune to slip and fall into a a large vat, used for the pur ose of boiling blocks preparatory to cutting. The blocks had just been removed from the vat containing a large quantity of boiling water.— He fell torward, scalding both hands and arms, all on one side, and one leg badly and the other partially. The scalds were so bad on his arms and leg, that most of the flesh came off with his garments, and his life was despaired of by both

his physicians and friends.

Dalley's Pain Extractor was procured as soo as possible (which was in about six hours) and siplied, and which relieved him from all pain, preventing inflammation and swelling, and in a lew days commenced healing his sores. There appeared a general improvement, so much act that in three weeks he was removed to his fath er's house, distance about one mile and a half. We continued the use of the above medicin about two months, and we believe it was the means, under Providence, of saving his life, and we would cheerfully recommend it in all similar cases, as a safe and invaluable remedy. With sentiments of respect, I remain, dear, sir, your

most obedient and hunble servant,

FEVER AND AGUE. This complaint has three stages. The first or quotidian comes on every 24 hours; the tertian, every 40 hours; and the quartian, every 48 hours. These are usually called the hot, the cold, and sweating. The symptoms are yawning and stretching; cold hands and feet; a shrivelled skin, a small and frequent pulse; and finally a cold shake.

Who would shiver and shake with this tormenting disease, when the only effectual remedy may be had for a mere trifle? The annex

cerity of the writer cannot be questioned.

This certifies that my son had been troubled with the Fever and Ague for the last four or five years. He first took it when we lived over in Jersey; and since we came here he has never known a well day. Half the time he has not been able to work at his trade; and as my husflakes, leaving a shocking and painful sight.— band is dead and my only dependence is on my lousey's Master of Pain was used, and the pain son's labors, times have gone pretry hard with Tousey's Master of Pain was used, and the pain instantly slopped, and the arm was specific to us. Dr. Townsend's Sarsaparilla.

There probably never has been so populars remedy or patent medicine, as Dr. Townsende's Sarsaparilla.

There probably never has been so populars remedy or patent medicine, as Dr. Townsende's Sarsaparilla, which was originally, and continues to be menufactured in this city, at first by the Doctor himself, and afterwards for several years and to the present time, by Clapp & Townsend, the present proprietors. Since the partnership was formed, the Doctor has resided in New York, where he keeps a store, and attends to the business that accumulates at that point. The manufactury is in this city, and is conducted by the junior partner, Mr. Casp—here all the medicine is manufactured.

Few of our citizens have any idea of the amount of
this medicine that is munifactured and sold. Besides
the saise in this country, it is shipped to the Canadas,
West India Islanda, South America, and wren to Furope, in considerable quantities. At the menhostory
they employ a steam engine, besides a large number
of men, women and girls, in the preparation of the
medicine, making hoxes, printing, &c.; and turn out,
ready for shipment, over 400 dozen per day, or hearing
1000 bottles. This is an amounted has acquired, has induced a number of men to get up insitations, and there
is at the present time, other medicines for sale, that
are called "Dr. Townseends Sarasparilla." One in perticular started a short (inte ago in New York; a called

and thus gain all the advantages rearbiting from the
popularity of the reme which he has acquired for it,
by years of patient and expensive labour. Dr. S. F.
Townseend, formerly of this city, as is well known
here, is the inventor and original proprietor of the

and we think these persons who are attempting beed their article as the genuine, should be exposed.
