derful effects of Dr. S. P. Townsend's Sarasparilla on the system.

Frinken Francov—Having for some time past, as you are aware, experienced great general debility of my system, situated with constant and nlarming irritation of my threat and lungs, I was, at your instance, and in consequence of having read 'apatian McLean's decided testimony in its behalf, induced in try Dr. S. Townsend's far-famed Sarasparilla. I tried it, I confess, more in the hope than in the confidence of flar proving effectious; but I on bound in candor iow to acknowledge, that I had not tried it long before I began to experience its adultary effects; and I may how say, with Captain McLean, "that I would not be without it on any consideration." It has done me more good than any provious remedy I have tried, and if this statement is deemed by you of any importance, you have my full consent to make it public.
