A Derangement of the Nervous System. AD-Parangement of the New Yorks systems.

(gC) In NRRVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing induence of Celvanism, as applied by this beautiful and wonderful discovery, the enhausted patient and weakened sufferer is restored to former health, strangth, elasticity and vigor. The great peculiarity and excellence of

consists, in the fact that they arrest and cure disease by suttend application, in place of the usual mode of drugging and physicking the patient, till enhanted Nature sinks hopelessly under the infliction.

They at engthen the whole system, equalize the circulation of the blood, premote the accretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than Dr. Christie's Galvanic Curatives,

60,000 Persons including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain ! when all hope of relief had been given up, and every thing side been tried in vain!

To illinstrate the use of the GALVANIC BELT, suppose the case of a person afficied with that bone of civilization, DYSFEPSIA, or any other thronic or Nervous Disorder. In ordinary cases, simulants are taken, which, by their action on the nerves and muscles of the stomach, afford resporsely relief, but which leave the petition in a lower state, and with injured faculties, siter the action thus excited has ceased. Now compare this with the effect resulting from the application of the OALVANIC SELT. Take a Dyseptic suffers, even in the worse symptoms of so attack, and simply its the Belt around the body, using the Magnetic Fluid as directed. In a short perside the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSFISIA are FRENIA NETTLY CURED. A FKW DAYS 18 OFTEN AMELY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS From all parts of the Country could be given, sufficient to fill every column in this paper!
