THE UNITED STATES ANNUITY & TRUST COMPANY.

THE constant, unsolicited applications for Life Insurance, furnish the most 343 74 abundant and gratifying proof, that the public mind is deeply impressed with the 25 25 vast importance of this subject. The great 440 55 object, however, of insurance, should be safety; otherwise the whole motive to insure may be disappointed. Too much care cannot be practiced in the selection of an office, with which to effect the contract, 51 51 The choice should be regulated, not by present and constant large inducements, as this is certainly incompatible with future benefits. The premiums on life are calculated for the future. If present and propective benefits, therefore, are given, the result, ultimately, must terminate in litigation, disappointment and ruin. The object simed at in this institution is stability and perpetuity. The rates of premium have been carefully prepared with reference to fluctuations. The cash system has also been adopted. Unpaid premium notes constitute no part of the assets of this Company, and every contingency being fortified with an ample capital, security stamps the whole system: This feature, paramount to all other considerations, commends the company to public favor.

to Housekcepers! important THE IMPROVED DOUBLE OVEN

COOKING STOVE

TWO SIZES are now constantly kept for sale in Gettysburg, at ANDREW POLLEY'S Tin Shop, and in Littlestown at JOSEPH BARKER'S Tavern. They are proven to be the best stoves now in use, for cooking, baking, rossting, and for warming a house, with less wood than any other stove, and are the heaviest in the casting, for the size, of any now made. They are warranted to bake well in both ovens. Any person wanting these stoves delivered, by leaving word at either of the above mentioned places, the proprietor will deliver them at a short potice, as he intends doing the peddling principally himself. He is confident that he can give people better satisfaction than hired pedlars. There are already upwards of SIX HUNDRED of the Laubach Stoves sold in York, Adams, and Carroll counties, within two years, but not so many of the late improvements. The improvement is pots. We deem it unnecessary to say more about them, but want people who are judges of cooking stoves to examine thoroughly, and we are confident that they will find that they have advantages over any other stove now in use, and according to the quality and weight, than any that are offered to the public. They are likewise kept for sale at the Proprietor's Foundry, near Dills-
