No. OF ADDRESS OF ADDRESS OF

THERE is one thing certain, that the prejudices which had so long existed in the minds of many persons, against Ready-made Clothing, have been almost entirely overcome in this community by the positive proof furnished by MARCUS SAMSON to those who have been dealing with him, that Clothing can be procu-red at his establishment of the best qualities and it infinitely lower prices than can be had anywhere else. He has shown that he can sell his ready-made clothing for less than the natural cost of the material of which they are made. His mode of buying and laying in goods enables him to do what he says, and he defies all competition, no matter in what place, to please, to merit and receive a continubounty or state. It is hardly necessary to may a word more. His friends and customers are convinced that they can save money by buying from him. He sells for cash, and has but one price. He never seki more than what he means to take .--His object is not to make as much as he can out of a customer who may favor him with a call. His aim is always to make honest bargains by which he may procure permanent customers. It is a mistaken idea with some people, that when they can succeed in ducing a man down they save something. It is not so. A person who is in the habit of permitting himself to be dued down, is always prepared for it by asking more than he wishes to take. The one-price system is the only proper and correct mode of dealing. One gentleman will thus get his clothing as cheap as the other. I invite the attention of my triends and the public generally to my ttock of Spring and Summer Clothing fust opened, and guarantee for them in ad vance that they will be pleased with both nd qualities, together with an assortment cordons, a lot of Carpet Bags, both for Ladies and gentlemen, a few Gothic eight-day and thirty-hour Clocks, a few large Looking Glasses, and a variety of other articles. I thank my friends and customers for their past patronage and respect-

full colicit a continuance of the same. I have on hand a good second-hand Piano, and an excellent Scraphino adapted to sacred music and church use-both of which will be disposed of very low.

LIFE INSURANCE ANNUITY & TRUST COMPANY **Charter** Perpetual CAPITAL \$250,000-CASH SYSTEM.

THE constant, unsolicited applications for Life Insurance, furnish the most

abundant and gratifying proof, that the public mind is deeply impressed with the vast importance of this subject. The great object, however, of insurance, should be safety ; otherwise the whole motive to insure may be disappointed. Too much care cannot be practiced in the selection of an office, with which to effect the contract. The choice should be regulated, not by present and constant large inducements, as this is certainly incompatible with future benefits. The premiums on life are calculated for the future. If present and propective benefits, therefore, are given, the result, ultimately, must termitrite in fiigation, disappointment and ruin. The object aimed at in this institution is stability and perpetuity. The rates of premium have been carefully prepared with reference to fluctuations. The cash system has also been adopted. Unpaid pretaium notes constitute no part of the aspets of this Company, and every contingency be-

ing fortified with an ample capital, security stamps the whole system. This feature, paramount to all other considerations. commends the company to public favor. Explanatory pamphlets, blanks, sppli-cation papers, information, and every facility, will be cheerfully furnished by D M'CONAUGHY, Esq., who has been appointed agent of the company.
