A Bich Story.

Some weeks ago there was a gath ering of the alumni of Rockland College, Louis, iana, when the following hitherto unoredited story was told. We are indebted for it to a correspondent of the New Orleans

A tall, awkward-looking chap, just from the green mountains of Vermont, came on board of one of the most spendid North River boats at Albany, His cariosity was amazingly excited at once, and he commenced "peeking," as he called it, in-to every nook and corner of the boat. The Captain's office, the engine room, the water closets, the barber's shop, all underwent his inspection in turn; and then be went on deck and stood in amazement at the lever beam, the chimney and the various "fixins," till at last he caught glimpse of the bell. This was the crowning wonder, and he viewed it from every position, walked around it, got down on his knees and looked up into it, and

exclaimed :-"Wall, raly, this beats the bell on ou neetin' house, a darned sight.'' By this time the attention of the can-

racted to this genius. "How much would you ask to let a feller ring this bell?"

"You may ring it for a dollar, sir." said the captain. "Wall, it's a bargain, all fair and agreed,

and no backing out."
"It's a bargain, sir," said the captain. Our hero went deliberately and brought a seat and took hold of the bell-rope, and, having arranged everything to his satisfaction, commenced ringing slowly at first, body on board thought the boat was on fire, and rushed on deck screaming with
