THE UNITED STATES LIFE INSURANCE

ANNUITY & TRUST COMPANY Charter Perpetual

THE constant, unsolicited applications for Life Insurance, furnish the most abundant and gratifying proof, that the public mind is deeply impressed with the vast importance of this subject. The great object, however, of insurance, should be safety; otherwise the whole motive to insure may be disappointed. Too much care cannot be practiced in the selection of

an office, with which to effect the contract, The choice should be regulated, not by present and constant large inducements, as this is certainly incompatible with future benefits. The premiums on life are calculsted for the future. If present and propective benefits, therefore, are given, the result, ultimately, must terminate in litigation, disappointment and ruin. The ob ject aimed at in this institution is stability and perpetuity. The rates of premium have been carefully propared with reference to fluctuations. The cash system has also been adopted. Unpaid premium notes constitute no part of the assets of this Company, and every contingency being fortified with an ample capital, socurity stamps the whole system. This feature, paramount to all other considerations, commends the company to public favor. Explanatory pamphilets, blanks, appli cation papers, information, and every fa-cility, will be cheerfully furnished by D.
