Blackwood's Edinb's Magazine (Tory. Although these works are distinguished by the political shades above indicated, yet Beautiful Paris Ribbons, for at Cap, voted to political subjects. It is their literary character which gives them their Sain and Taffeta Ribbons, of all widths shief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the master-ly guidance of Christopher North, maintains it ancient celebrity, and is, at this time, unusually attractive, from the social works of Bulwer and other literary nota-

bles, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs. Scott & Co., so that Subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fasci-

nating tales. These Reprints have now been in successful operation in this country for twenty years, and their circulation is constant ly on the increase notwithstanding the competition they encounter from American selections from foreign periodicals. The fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interuption. use.

We the undersigned, having seen and used BUSWELL'S Mineral Point, can safely recom mend it to the public as being an article superior to any Mineral Paint ever before offered for use it is not unpleasant to use, like the MUDDY Ohio Paint which is harped about the country so much but mixes up without like pure white lead. It is sold at half the price of common paint, and we believe where the color is desirable, it is worth twice as much, and as a Fire, Weather, or Water proof Paint, we think it cannot be surpassed by anything in the Paint line now in use.
