ALL IMPORTANT DISCOVERY!  
WHEAT FLOUR  
AWAKE TO YOUR INTERESTS.  
BONNELL'S  
NEW and improved Patented process of flouring by which a barrel of superfine flour is constantly made out of 240 pounds of wheat.

The subscriber having introduced the above process of flouring into his Mill at Louisa Grove, in Germany township, Adams county, finds it to work beautifully, and is now realizing all he anticipated from it, by constantly making a barrel of superfine flour from 240 pounds of good wheat, or a straight average grade, without stoppage or interruption, for re-grinding purposes. This process can be adapted to country work to the same advantage as Merchant work. The Milling community are respectfully invited to call at his Mill, one and a half miles S. West of Littlestown, where they can see the whole process in full operation, witness its simplicity and perfection, find that it works to admiration, and so mistake. The undersigned has procured the right, and is now prepared to sell County, township and individual rights in the following Territory:  
Adams, Franklin, Cumberland, Dauphin, in York, Lebanon, Chester, Berks, and Lancaster County and City in Pennsylvania, and Allegheny, Washington and Frederick, Carroll, Howard, Anne Arundel, and Baltimore County and City in Maryland.

This process has been introduced, and is now in use in many of the most extensive Flouring Mills in Western New York, Michigan and Ohio, all of which are making a barrel of superfine flour from 240 pounds of wheat upon a straight average grade. For further particulars refer to hand-bills, put up in the Hotels in Gettysburg, and most of the towns of note in the County, containing a number of Certificates, &c., from practical operators, men of the first standing. All the necessary information, together with a draft of the bolting arrangement, hopper, plan, of feeding, &c., &c., will be given to any individual purchasing a right. Any further information can be obtained by calling on the subscriber, or by letter, (post paid), to him at Gettysburg.  
GEO. ARNOLD,  
Gettysburg, April 16, 1852—If.

In a letter from Mr. A. I. Spalding of the State of New York to the undersigned, dated 10th 1851, he says:—"I have Bonnells' process of flouring in my mill, and it is right—and 4 bushels of good wheat weighing 60 pounds to the bushel is enough for a barrel of superfine flour; if you think it an object to gain from 16 to 25 cents of wheat in every barrel of flour, come and see my arrangements. I am making the yield daily. I will not go back to the old method. I have had 23 years experience in the business, and it is worth all other improvements."  
G. A.  
P. S. Mr. Spalding is a large operator, grinding upwards of 30,000 barrels of flour yearly.

**IMPORTANT TO FARMERS.**  
A barrel of superfine flour out of 240 pounds of wheat—and no mistake!  
GEORGE ARNOLD  
HAS introduced into his Mill at Louisa Grove, Germany township, BONNELL'S PATENTED PROCESS OF FLOURING, and is now making a barrel of superfine flour from 240 pounds of wheat of clean wheat weighing 60 pounds. This brings a gain to the farmer of from 16 to 25 cents of wheat to the barrel over the ordinary process of grinding; there is also a gain in the offal, in there being more shorts and shipwast and little or no bran. This improvement consists of a mechanical process of grinding, bolting &c., until all the flour is obtained, separating the starch from the gluten substance contained in the grain, and getting the quality of the flour is improved. By grinding so close the first grain as to get the quality of the farina or meal part of the grain, and grinding so close the second grain as to take out all the flour from the portion of the berry which remains in the offal with the old method of grinding, and which is the most nutritious part of the flour, this being combined with the whole, improve the quality of the flour, makes it more nutritious, will always insure good fermentation in baking, rises better, is not so liable to sour, will make a better yield of bread to a given quantity of flour, as white and sweeter than flour ground in the old way, preserving all the good quality of the flour.  
Farmers wanting a barrel of superfine flour made from 240 pounds of good clean wheat, will please call at Louisa Grove.
