BONNELL'S

NEW and improved Patented process of flowering by which a barrel of superfine flour is constantly made out of 240

The subscriber having introduced the above process of Flouring into his Mill at The baths are now ready for use, and will Locust Grove, in Germany township, Adams county, finds it to work beautifully. and is now realizing all he anticipated from it, by constantly making a barrel of superfine flour from 240 rounds of good wheat, on a straight average grind, without stoppage or interruption for re-grinding purposes. This process can be adapted to country work to the same advantage as Merchant work. The Milling community are respectfully invited to call at my Mill, one and a half miles S. West of Littlestown, where they can see the whole process in full operation, witness its simplicity and perfection, find that it works to admiration, and no mistake. The undersigned has procured the right, and is now prepared to sell County, township and individual rights in the following Territory:
Adams, Franklin, Cumberland, Dauph-

in, York, Lebanon, Chester, Berks, and Lancaster County and City, in Pennsylvania, and Allegheny, Washington and Frederick, Carroll, Howard, Anne Arundel, and Baltimore County and City in Marvland.

This process has been introduced, and is how in use in many of the most extensive Flouring Mills in Western New York, Michigan and Ohio, all of which are making a barrel of superfine flour from 240 6. The use of soap in the Plunge Bath pounds of wheat upon a straight average grind. For further particulars refer to handbills, put up in the Hotels in Gettysburg, and most of the towns of note in the County, containing a number of Certificates, &c., from practical operators, men of the first standing. All the necessary information, together with a draft of the bolting arrangements, hopper, plan of feeding, &c., &c., will be given to any individual purchasing a right. Any further information can be obtained by calling on the subscriber, or by letter, (post paid,) to him at Gettysburg. GEO. ARNOLD.

Gettysburg, April 16, 1852--if. In a letter from Mr. A. L. Spalding of the State of New York to the undersigned, dated October 10th 1851, he says :- "I have Bonnel's process of flouring in my mill,-it is right-and 4 bushels of good wheat weighing 60 pounds to the bushel is enough for a barrel of superfine flow; to fill all orders in their line of business, and it is worth all other improvements. had 23 years experience in the business.

P. S. Mr. Spalding is a large operafor, grinding upwards of 30,000 barrels of flour per year.

IMPORTANT TO FARMERS. A barrel of superfine flour out of 240 pounds of wheat-and no mistake!!

mers may rely upon having their orders. AS introduced into his Mull at Losystem.

and by it the quality of the flour is improved, not grinding so close the first grind as to injure the quality of the farma or mealy No expense or trouble will be spared to part of the grain, and grinding so close the second grind as to take out all the flour from the portion of the berry which remains in the offal with the old method of grinding, and which is the most nutricious part of the flour; this being combined with the whole. improves the quality of the flour, makes it more nutricious, will always insure good

> Farmers wanting a barrel of superfine flour made from 240 pounds of good clean wheat, will please call at Locust Grove.

in all its branches, and Great Labor Saving Invention.

With this arrangement as now introduced in Mr. George Arnold's Mill, at Locust Grove, one hand is enabled with case to manufacture and send off 40 barrels of flour per day, saving the expense of one hand in the Mill. It is not liable to get out of order, and besides the great gain in yield, comes as near entirely doing away manual labor in the Mill as is possible. leaving for the Miller little else to do than overlook the machinery and see that all works well,
