satisfy yourselves.

There are those, who, prompted by selfish motives, sometimes decry Ready-made Clothing, as being defectively made up or made out of damaged materials. This may do to Hind the unthinking, but not those who will take the trouble to examine my large assertment of goods. I invite gentlemen to call and say whether they have not paid as high as \$8 and \$10 per yard for cloths no bet-ter than that in my coats, which are made up too by a regular New York tailor. Occasionally an by a regular new York tailor. Occasionally an article may prove defective, but where is the merchant that has never sold a piece of cloth, cassinette, calicue, or muslin, which did not turn out to be bad. It is impossible to prevent this altogether, even with the best of judges.

Time is said to be money, and money is said to e time. So they are, if properly applied. And herein lies the secret of my shility to sell goods lower than any body else. Instead of running to the city, and spending a few days in hastily purchasing goods at market prices. I spend as many weeks and even months as others do days-thus at almost half the market prices. Hence I am enabled to sell the same goods to my customers much lower than others, and frequently one-half

Besides, I adopt no two-price system, by which one customer is required to pay 10 or 20 per cent. more than others.
