the Rock Rose Plant is Unequalled in curing SUROFULA in all its forms!

STATEMENT OF REV. E. R. WARREN. Pastor of the 2d Baptist Church, New London Ct.) relative to Myers Extract of Rock Rose, To the American Public.—As my name has been used in connexion with recommendations of Mr. Myers' Rock Rose Syrup, in various adverincoming, by the manufacturer, I beg leave to make the following statement with reference to my acquaintance with the remedy and tests of which I have subjected it, and the reasons for having introduced it to the notice of private friends in the community in which I reside, long before ment freely, because I have, as a principle, withheld my name from all patent medicines, and sedu-lously abstained from recommending them to the Such, I fear, is the character of a large portion of the patent panaceus of this medicine-making age.

Their name is legion," and from their influence.

as from the demonreal spirits, we have reason to pray for a safe deliversice.

The First Test.-I had myself suffered occasionally with sudden attacks of Sick Headache and Billous Diarrhea, and I had sought a great variety of curative agents to but little purpose; and suf-ering from this disease (diarrhea) at this time, I determined to test the new Syrup first upon my-selt. The results were beyond my expectation. It was a powerful alterative, and the morbid so rected the derangement of the digestive organs and gave me that inestimable bessing-nearra. Other Tests .- Finding this medicine so useful homor showing itself on all parts of the surface, specks of mortified flesh. In addition to some other remedies, I gave the child this Syrup for a bout six weeks, when she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to

ROWAND'S BLACK-BERRY health. The family feel that they owe her life, with God's blessing to my remedies.

This test satisfied me that the Rock Rose possessed specific powers for Scrofulous hum as. I then tested it in cases of Cutaneous Eruptions, in Measles, Chicken Pox, Canker, Sore Mouth, Erysipelas, sait Rheum, Files, &c. In all these cases with perfect success. After testing this years for more than a year, I wrote Mr. Myers (Oct. 7th, 1850) enthusiastically, not expecting my letter would be published, that his wrup was a Pankorite, all healing, and I gave him the eesult of its operations in several instances.
