For a more minute and analyti-cal description of it, the reader is referred to Tor-

rey & Gray's botanical works. Its Medical Hutory and Properties are far the most important, since upon these depends its value to the community. Dr. houdon says that in 1799 it was so valuable, that it was culturated from seeds. Eversince 1806, Prof. Ires, of Yale College, has habitually used

it with great success in Scrolula and Chronic Discuse, and through him its virtues were made known, until, as Dr. Tyler says, "it is how in this section [New Haven] a common article in do-mestic practice for the cure of Scrolula and cu taneous disenses." Dr. Whiline, A Scotch Botanist, of notoriety.

while traveling in America, in 1824, learned its use in Canada. Returning to England, he em-ployed it in medicating his baths, which became greatly celebrated for the cure of similar diseases.
