ROSE? The following history of the Rock Rose plans D. M'CONAUGHY and its medicinal properties, we take from New Haven Palladium, March, 18:2. ATTORNEY AT LAW,

(Office removed to one door West of Buehles "The increased interest manifested in the Rock Drug & Book-Store, Chambersburg street.) Attorney and Solicitor for

"The increased increase in anneal a state winder-ful cures effected by "Myais" Gomponial Exitact or Rock Rose, "calls for a orier instory of it. in order to correct any erroneous opinion that may have been ontertained concerting it ; and where to set in a true light the nature of a plant which promises to be universally bereficial. We are indebted to the United States Dispenpended Claims, and all other claims against the Government at Washington, D. C .:

satory of 1847, for the following descuption Warrants located and sold, or bought, and, of it. It is entirely different from the common Rose.

It is a red stemmed, oblong leat plant, having a bitter taste. In addition to a remutable peculiarity of the plant, of bearing two crups of flow ers in one sesson, it also has another and beautiful property. Dr. Eaton says that in the months of November

and December, he has seen hundreds of these plants seuding out, near their roots, broad, thin, curved ica crystals, about an inch in breadth which melted during the day, and were renewed

Which meled during the day, and were renewed in the morning: ... Key a more minute and analyf cal description of it, the reader is referred to Tor-rey & Gray's bolagical works. Its Medical History and Properties are far the most important, since upon these depends is val-ue to the community. Dr. London asys that in 1700 it was so supple the incomentation 1799 it was so valuable, that it was cultivated from seeds. Ever since 1806.

Prof. Ices, of Fale College, has habitually used it with great success in Scrofula and Chronic Disease, and through him its virtues were made known, until, as Dr. Tyler says, "it is now in this section [New Haven] a common article in do mestic practice for the cure of Scrotula and entaneous diseasos." Dr. Whitlaw, A Scotch Botanist, of notoriety,

AS just returned from Philadelphia with a large and well selected as-sortment of FANCY GOODS of every Dr. Whiltow, A Scotch Botanist, of notoriety, while traveling in America, in 1824, learned its use in Canada. Refurning to England, he' em-ployed it'in medicating his baths, which became greatly celebrated for the core of similar discover.

Dr. Isaur Parish, of Philadelphia, remarks that it has been successfully used in bad cases of Scrofulous diseases.

Scrofulous diseases. Dr. J. H. Thompson, of the same place, prescrib ed it in bad cases of Scrofulous patients at Wills' Hotel. His success attracted the attention of senior physicians. Ho reports the following remarkable case of White Swelling of the hip, in rebuary: 1844: The lad was sover years old, and had, the disease for three years. The bone was dislocated upward and outward. There was Velvets, Ribbons, Artificials, Black Veils, Blue do. Gloves. Hosiery, Handkerchiefs, French worked Collars, Cambric, Jaconet a large opening on the hip leading to the bone, into which I could thrust my finger. I counted hree ulcers. Ho had been under several phy-sicians, who had given him up. I ordered a de-coction of Rock, Basen In two days his Night and Swiss Edgings, Insertings, Muslins, Sleeves, Mohair and Silk Mits, Black Lace and Embroidered Handkerchiefs, Braids, Fans, Gentlemen's Collars, Combs sweats ceased ; I then ordered a tes spoonful of Rock Rose three times a day. THIRTY-NINE DAYS after he was ENTIRFLY WELL of all kinds, &c., &c. PLadies and Gentlemen are requested to call and ex-amine our Goods. It will give us pleasure

Dr. Webb, of Madison, Ct. testifies to the value of Rock Rose, as evinced in the cure of numerous

cases of the Scroula, especially in children. Dr. S. Fuller, of Hariford, Ct. administored the Rock Rose to a Scroulous femalo, in which the anti-scrofulous remedies had been applied without success. The disease was fully arrested by it. The Rock Rose is a plant of rare medicinal virtues, and unrivalled as a curative agent in Scrofulous diseases. I cannot but express the de-sire, in closing this statement, that it may be found to lessen the sufferings of our diseased and dying humanity.
