According to the opinion of Eminent Physicians, the Rock Rose Plant is Unequalled in curing SUROFULA in all its forms t STATEMENT OF REV. E. R. WARREN. Pastor of the 2d Baptist Church, New London, Ct.) relative to Myers Extract of Rock Rose,

To the American Public .- As my name ha seen used in connexion with recommendations of mr. Myers' Rock Rose Syrup, in various advertisements, by the manufacturer, I beg leave to make the following atstement with reference to my acquaintance with the remedy and tests of which I have subjected it, and the reasons for interest to reserve a portion of their mon- having introduced it to the notice of private friends ev. and make selections from my great in the community in which I reside, long before the medicine was advertised. I make this state ment freely, because I have, as a principle, with-held my name from all patent medicines, and sedulously abstained from tecommending them to the public, believing them frequently the spawn of quackery and humbug, and as tending t f lessening human disease and suffering. Such, I fear, is the character of a large portion of the patent panaceas of this medicine-making age. "Their name is legion," and from their influence, as from the demonical spirits, we have reason to pray for a safe deliverance.

The First Test.—I had myself suffered occa-

nally with sudden attacks of Sick Headache and

sionally with sudden attacks of Sick Headsche and Billous Diarrhes, and I had sought a great variety of curative agents to but little purpose; and sud-ering from this disease (diarrhes) at this time, I determined to test the new Syrup first upon my-self. The results were beyond my expectation. It was a powerful alterative, and the morbid ac-tion of the system was changed, and the functions of accretion ware restored to a healthy state. of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs rected the derangement of the singestive organs-and gave me that ineatimable beasing—HEALTH. This test was not determined in a week, or a mouth; but I took four or five buttes in perhaps as many months. Since that time I have suffered but slightly from these derangements. MY SICK HEADACHE IN ENTIREL. CURED Other Tests .- Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time, I was earnestly solicited to give advice in reference to a child, some eight yeggs of ege. The child was severely afflicted with a Scrofula humor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live. The hunor resembled black specks of mortified fiesh. In addition to some ther remedies, I gave the child this Syrup for a bout six weeks, when she had sufficient atrength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to

health. The family feel that they owe her life, with God's blossing, to my remedies.

Its Medical History and Properties are far the

most important, since upon these depends its value to the community. Dr. Loudon says that in 1799 it was so valuable, that it was cultivated from seeds. Ever since 1806,
Prof. Ives, of Yale College, has habitually used it with great success in Scrofula and Chronic Dis case, and through him its virtues were made known until as Dr. Tyler says, "it is now in

this section [New Haven] a common article in do-mestic practice for the cure of Scrolula and cntaneous diseases.". Dr. Whitlaw, A Scotch Botanist, of notoriety, while traveling in America, in 1824, learned its use in Canada. Returning to England, he em-ployed it in medicating his baths, which became greatly celebrated for the cure of similar diseases.

Dr. Isaac Purish, of Philadelphia, remarks that
it has been successfully used in bad cases on

it has been successfully used in bad cases of Scrofulous diseases.

Dr. J. H. Thou. pson, of the same place, prescribed it in bad cases of Scrofulous patients at Wills' Hotel. His success attracted the attention of senior physicians: He reports the following fe-markable case of White Swelling of the hip, in February, 1844: The lad was seven years old, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone, into which I could thrust my finger. I counted hree ulcars. He had been under several physicians, who had given him up. I ordered a decoction of Rock Rose. In two days his Night
aweats ceased; I then ordered a tea spoonful of
Rock Rose three times a day. THIRTY-NINE

Dr. Webb, of Mudison, Ct. testifies to the value of Rock Rose, as evinced in the cure of numerous cases of the Scrofula, especially in children. cases of the Scrollin, especially in children.

Dr. S. Fuller, of Hartford, Ct. administered the Rock Rose to a Scrofulous female, in which the anti-acrofulous remedies had been applied without success. The disease was fully arrested by it.
