A Blow-up among Stock-Brokers.

Wall street and all the financial circles of New York where Stock-gambling is usual, do congregate" have been thrown into a state of unusual excitement by the news of the opposition of certain stupendous frauds in the execution of certificates of Stock in the Parker Vein Coal Company, the Harlem Extension Canal, and New York and Harlem Railroad Company. The two former companies are of the "wild-cat" order, and the latter was a firm and substantial matter, in which many permanent investments had been made, and which had paid dividends up to the the time of the Nor'-wich catastrophe. The President of the Parker Vein Company has gone to Europe—the two New-Haven has failed, resigned, and is said to have fled the country. The overissues of New-Haven stock amount to the enormous sum of nearly two millions of dollars.—*York Rep.*

PROGRESS OF THE CHOLERA.—There have been quite a number of cases of cholera among some Norwegian and Swedish emigrants at Detroit and Chicago. In a party of 150 landed at Detroit, on the 29th inst., 18 were attacked. Of one hundred at Chicago, 7 died, and 20 more were prostrated the last week. It is said that there were 10 fatal cases in Boston, on Saturday. At Oberlin, Ohio, 4 cases and 2 deaths are reported. Benin Hoffman, late Deputy Warden of the Ohio Penitentiary, died with cholera at Mt. Vernon on the 25d. The Indiana Asylum, at Indianapolis, Ohio, is shut on the 4th there were 22 cases in the city limits. At Eutaw village, opposite Wheeling, Va., we learn a population of two hundred, 21 died of cholera in 24 hours.

RELIGIOUS RIOT.—A serious disturbance occurred at Livermore (Maine,) on Saturday night, between the American and Irish, which originated in the American flag being carried in an Irish procession surmounted by the cross. Both parties were armed, and guns and pistols were freely fired, without, however, doing any great personal damage to the belligerents on either side. The Irish were finally put to flight, and many of the Americans wounded. The military were ordered out, and the rioters were soon dispersed. All was quiet on Sunday.

MILITARY ORGANIZATION.—It is stated by a correspondent of the New York Sun that the Irish military number throughout the United States, up to the present date, 50,000 armed and well disciplined troops.

Prince's accounts are said to be his false—the substance of things hoped for, and the evidence of things not seen.

Four Days Later From Europe.

The Russians about to Evacuate the Principalities.

The United States mail steamship Baltic, Capt. Comstock, arrived at New York at five minutes past one o'clock on Saturday from Liverpool. She sailed at one o'clock precisely on Wednesday, the 28th June, and has made the quickest passage on record to New York. Her running time was nine days sixteen hours and fifty-three minutes, entirely by steam.

THE SEAT OF WAR.

A telegraphic report from Vienna announces that the Czar has replied to the last Austrian note that as a mark of high consideration for Austria, Russia consents to evacuate the Turkish territories".

Such a reply certainly was expected by few; and inasmuch as the tenure of the Principalities certainly has not redounded to the military fame or reputation of Russia, and has been altogether a futile display of power at an immense cost of men and money, the evacuation of them can only be explained on the supposition that the Czar has become satisfied that he could not hold them against the Turks and their allies. At one time no persuasions of Austria, or the other powers, could induce him to give even a civil reply to their demand. "Circumstances alter cases."

The Czar was losing much and gaining nothing. The probability is that defeat, and thereupon began to entertain "high consideration" for any power that would ask him to evacuate.

It occurs to us as exceedingly probable that the Czar, however, came to this resolve with the full expectation that Silistria would be taken, and that then his retirement would appear a voluntary condescension. The probability is that orders were that Silistria should be taken and that the army should retire on a certain day at the time fixed upon for the retirement, (thanks to the bravery of the Turks,) came round before the place was taken, and they saw there was no room to doubt that the retreat is sounded. Time will show what the Czar next will do.

Advices from Vienna to the 22d inst. state, that on the 4th there were 22 cases in the city limits. At Eutaw village, opposite Wheeling, Va., a population of two hundred, 21 died of cholera in 24 hours.

AGRICULTURAL PREMIUMS.—The attention of our Agriculturalists is invited to the list of Premiums to be awarded by the Adams County Agricultural Society. We believe it is in contemplation to have an Exhibition sometime this fall.

☞The Hanover Saving Fund Society intend to apply to the next General Assembly of Pennsylvania for the extension of their charter to fifteen years; and to confer banking privileges upon that corporation, under the name of the Bank of Hanover, with the privilege of increasing the capital to one hundred thousand dollars.

☞The Whig Convention of Bedford county last week appointed JACOB H. BARNDOLLAR, THOMAS A. BOYD, and WILLIAM HARTLEY, Conferees, to represent Bedford in the Whig Congressional Conference. The following resolution, complimentary to our present worthy member, was adopted by the Convention:

Resolved, That the Hon. Samuel L. Russell has our endorsement as a talented and faithful Representative in the present Congress, of whom we can cordially say, "well done thou good and faithful servant," and we will therefore recommend him for re-nomination to the other counties of the District; notwithstanding, we hold ourselves bound by the action of the last conference, limiting each county one term.

MR. RUSSELL has proven himself a faithful and an acceptable servant—orthodox in his views, and always at his post. During the memorable Nebraska struggle in the House, he did his whole duty, recording his vote uniformly against every proposition calculated to facilitate the passage of the bill, and manfully sustaining the cause of liberty throughout the last conference, limiting each county one term.

MR. RUSSELL has proven himself a faithful and an acceptable servant—orthodox in his views, and always at his post. During the memorable Nebraska struggle in the House, he did his whole duty, recording his vote uniformly against every proposition calculated to facilitate the passage of the bill, and manfully sustaining the cause of liberty throughout the last conference, limiting each county one term.

It is reported that the official roll of the Russian army of the Danube shows a loss of 50,000 men since crossing the Pruth.

☞The Philadelphia *Daily News*—a spirited and ably conducted Whig penny paper—has donned a new and beautiful dress. It deserves liberal support from the Whigs of Philadelphia.

☞The "German Liberals" of Boston have responded to the call of their brethren in the West, and put forth a platform almost identical with that laid down by the Free German Democrats of Louisville—pledging themselves to them, as American people have strayed from the true principles of freedom and republicanism; and they *det must* a number of modifications in the constitution and laws of the country, which modifications are necessary, in their view, to the restoration of the Union to its former existing government. As their platform involves, among other things, the repeal of Sunday Laws, Temperance laws, &c., the exclusion of the Bible from schools, it is not probable that they party will thrive greatly in the uncongenial atmosphere of New England.

☞Hon. JOHN MCKEON has been nominated to the District Attorneyship of New York, in place of Charles O'Conner, resigned. Theodore W. Westbrook, a Nebraska member of Congress from New York, wanted it badly, and it is said Westbrook had an express promise of the office from the President, in consideration of which he sold himself and betrayed his constituents by voting for the repeal of the Missouri Compromise. But MARCY went for MCKEON, and the President had to knock under.

☞The New York Tribune in a reply to a contemporary, who finds fault with it for publishing accounts of races, says :—"We publish accounts of a great many other things which we profoundly deplore —for instance, Pierce's election, the passage of the Nebraska bill, thefts, murders, hangings, and so forth. If we could only hear of the final destruction of every race-course in the world, we should like to publish that also." When will readers learn that editors do not endorse all that appears as news in their columns ?

☞The Supreme Court of Pennsylvania has decided that a bill made for property which is selling at sheriff's sale, may be withdrawn at any time before the property is knocked down to the bidder, notwithstanding the notice of sale may have declared that "no person shall retract his or her bid." They require the bidder, however, to pay the legal costs of a second sale, should the retraction of his bid render one necessary.

☞The new Catholic churchat Dorchester, Massachusetts, was blown up with gunpowder and almost entirely destroyed, on the Fourth.

Locofoco Views of the Canvas.

☞The impression is becoming general that Gov. BIGLER is doomed to meet with a bad defeat this fall. Even his own party journals, taking the thing for granted, are coasting about in advance for the canses. The Harrisburg *Democratic Union*, the leading organ of the party in the State, which puts forth the names for Douglas, Nebraska and Slavery, and against "Know Nothingism," denouncing the latter as an offshoot of French "Jacobinism" and rank "Infidelity," —in a recent article upon the prospects of the party in Pennsylvania, thus delivers itself :

"We again repeat that James Campbell and his jackall, Forney, have infused into the organization of the Democratic party the elements of its destruction; we repeat that the unmerited elevation of James Campbell was an insult to Pennsylvania, which has excited public indignation, and *has led to a formidable organization that now threatens the defeat of the Democratic party!* we repeat, that the unrelenting proscription in Pennsylvania of the friends of the venerable Gen. Cass was assassination, in the Baltimore Convention by the Campbell clique; has alienated from the General Administration two-thirds of the Democracy of the Keystone State; we repeat, that if these arch intriguers are not repudiated, both at Washington and in Pennsylvania, the people will pass sentence upon them at the next general election—*and not upon the Arch of these assertions we appeal to the future!*"

The Union with all its radicalism and devotion to party, has the honesty to look things in the face, and the fearlessness to denounce corruption among its own political friends, irrespective of the position of those against whom its anathemas may be directed. It foresees the consequences of the policy of the demagogues who have for years been simply to sustain Locofocism by the basest appeals to religious prejudice, and, while deploring the result, does not hesitate to charge home upon these demagogues the entire responsibility of having so "excited public indignation," as to have led to "the formidable organization" of Know-Nothings, "that now threatens the defeat of the Democratic party." Unquestionably the *Union* is right.

For a long series of years the entire Locofoco Press of the country has teemed with the most shameful appeals designed to secure the foreign vote—denouncing the Whigs as "Native Americans," "Church Burners," and similar cant—and with too much success. Against this demagogueism the Whig party have solely endeavored to bear up, deprecating the introduction of such an element into politics, and predicting the necessary consequences, it the Foreign vote permitted itself to be cajoled into a single party vote, we believe Mr. RUSSELL declines being a candidate.

☞A State Convention of County Superintendents is in session at Harrisburg, to devise an effective organization for the advancement of the cause of education by Common Schools. Mr WILSE, the Superintendent of this county, is in attendance.

☞The *York Republican* comes to us this week in an entirely new suit of type, and much improved in appearance. The *Republican* is one of the best Whig papers in the State—orthodox in its general views and conducted with marked ability.

How it can be done.

☞The New York Tribune, in combating the position that there can be no hope of repealing the Nebraska swindle so long as PIERCE holds the reigns of government, with a Pro-Slavery Senate to back him, insists that a clear majority of sincere, earnest repealers in the popular branch of next session can do it. Let a majority be chosen to the next House of men who really mean that the Nebraska wrong shall be repaired, and it is *all* be before the close of the next session. Let the House just affix to the Deficiency bill, thus to the Civil and Diplomatic Appropriation bill, and to three or four more such if necessary, a proviso repealing so much of the Nebraska-Kansas bill as affects the Missouri Restriction, and declaring that Restriction re-established, and the work is done. There may be some kicking at first, but let the House evince a quiet, cool determination, and the bill will pass, in spite of half a dozen Douglas senators among the Free States. The Federal office-holders who have done most of the electioneering for the Iniquity, will be lobbying on the other side when they find that their pay is stopped until the Restriction shall be restored. And this is but one of several ways in which an earnest anti-Douglas House can secure the undoing of the great wrong of the present session.

We again entreat the citizens of the Free States to bring pressure to the next House who lacks nerve or faith with regard to the great struggle now pending.—With a platform so broad and so liberal that all earnest contemners of the Nebraska iniquity may stand on it, we can hardly fail to triumph. No Senate, no Executive, will attempt to defeat or defy the earnest demand of two-thirds of the American people.

☞The itinerant preacher who calls himself the "Angel Gabriel," lectured at Pike's Opera House, Cincinnati, on Sunday last, to a large crowd. A mob of men and boys proceeded to the Old South Church, used by the Catholics as a place of worship, broke open the doors, rang the bell, and displayed the American flag from the belfry. They afterwards set the church on fire, and it was burned to the ground. No further destruction of property took place, but a mob of about one hundred paraded the streets, yelling and hooting, until near morning. In fact not high time that this "Angel" were stopped in his incendiary mission. We are reluctant as any one to interfere with freedom of speech, but there is a point at which toleration ceases to be a virtue. This "Angel" is one of those discontented, irresponsible agitators yearafter yearthrown upon our shores from amid the hot-beds of European Infidelity and Agrarianism; whose insolent bearing and disregard for the restraints of law are so well calculated to arouse a feeling of opposition to *all* Foreigners, and thus prejudice a large class of honest, intelligent, and industrious emigrants who seek their country as a refuge from the oppressions of the Old World, deport themselves as good, law-abiding citizens, grateful for privileges secured, and who would in themselves be gladly welcomed to our shores. Ever since the advent of this "Angel," whose mission seems to be to agitate, the newspapers have been kept busy reporting the endless Sunday disturbances, mobs and riots, which he seems to make it a special aim to excite. We believe in the "freedom of Speech," but this "Gabriel" is running the thing into the ground.

☞After eleven ballots, the New Hampshire Legislature abandoned in despair the attempt to elect a United States Senator to fill the short term. Mr. John T. Wells, the Administration candidate, on the eleventh received more than 149 votes, and thus fell 6 short of a majority; 153 votes being necessary to a choice. The next highest vote was 103 for the Hon. G. W. Morrison, a Democratic member of the present Congress, who voted against the Nebraska bill. The remainder of the vote was scattered among several persons. A motion to indefinitely postpone was adopted by 159 to 147. A motion to reconsider the vote was negatived, 152 to 154. So the Senatorial question is settled for this session.

Strong anti-Nebraska resolutions were adopted by a decided majority, censuring the Northern members of Congress who voted for the measure, and demanding its repeal.

☞The jury in the case of Father KROZIER, a Catholic priest at Cincinnati, indicted on a charge of assault and battery, on a young girl belonging to his church, with intent to commit a rape, were discharged on Tuesday last, being unable to agree. It is said they stood six for conviction for assault with intent to commit violence on her person, and six for assault and battery. The case excited much interest, and attracted a large crowd during the trial.

☞The Albany *Atlas* states that the last number of Brownson's Quarterly *Review*, (a Catholic work,) announces the adhesion of that eccentric philosopher to the new political sect, the Know Nothings. He stipulates for one restriction of his creed, that while it need abate none of its hostility to foreigners, it will cease its proscription of native born Catholics. He reminds them that the native born Catholics are as hostile to foreigners as any others; and that the first native American sheet published in this country was started by a Catholic writer.

☞We learn from the Carroll County *Democrat* of last week, that a cow belonging to Col. A. G. AUE, of Taneytown district, Md., of said county, gave birth to a calf on the 21st ult., which weighed when three hours old 119 pounds.

IMPORTANT ARREST.—It will be recollected that a free colored man named SOLOMON NORTHROP, was hired at Saratoga Springs in 1841 by a couple of villains to go to the South with them to join a circus company—that on reaching Washington city, Northrop was treated with drugged liquor, put in a Slave-pen, sold to a Slave-dealer, and taken off. He was lost sight of until within a year or two, when he was accidently found upon a Slave plantation in the interior of Louisiana. Intelligence of his whereabouts being communicated to his friends in New York, legal proceedings were instituted to secure his freedom, which were successful, and Northrop published a pamphlet detailing the facts and describing the villains who had kidnapped him under assumed names. Last week two of the villains, calling themselves Alexander Morrille and Joseph Russell were arrested in New York, on the charge of kidnapping Northrop and selling him into Slavery. They were held to bail in the sum of $5,000 each, and committed for trial. Northrop swears positively to their being the persons who kidnapped him. The accused were discovered from the descriptions given in Northrop's book.

☞The Delaware County *Republican* says that there are at the present time at least twenty thousand head of cattle in Delaware and Chester counties in the hands of the farmers and graziers, who are feeding them for sale to any person who will call and buy them at fair prices.

☞An Anti-Nebraska State Convention, composed of Whigs and Democrats, assembled at Jackson, Michigan, on the 6th inst., and nominated a full State ticket—KINGSLEY S. BINGHAM, Free-Soil Democrat, heading the list, as candidate for Governor. Resolutions denounced the Nebraska bill and the Fugitive Slave Law, and to abolish slavery in the District of Columbia, were adopted unanimously.

☞Pending the consideration of a Bill in the lower House of Congress on Saturday last, to extend the patent of Samuel Colt for an improvement on fire-arms, Mr. CLINGMAN charged that very large sums of money had been offered to induce members to vote for the bill. The charge was produced some months ago, and after some debate a Committee of seven members was appointed to investigate the matter.

☞Capt. ADAMS arrived at Washington on Monday, with dispatches from Com. Perry, of the Japan squadron. He brings the Japan Treaty, opening the ports of that country to American trade. The treaty also provides that in the event of future formation of treaties between Japan and any other foreign nations, the United States shall be placed in all respects on the footing of the most favored nation.

☞Several of the persons wounded by the collision on the Baltimore and Susquehanna Railroad on the 4th, have since died.

JOHN SCOTT, the conductor of the express train which left Harrisburg at seven o'clock A. M. on the 4th inst., was killed instantly by the collision.

JOHN SCOTT, the conductor of the express train which left Harrisburg at seven o'clock A. M. on the 4th inst., was killed instantly by the collision.

MAINE POLITICS.—The Free Soilers of Maine have adopted Mr. Morrill, the Maine-law-anti-Nebraska Democratic candidate for Governor, as their own candidate for that office. There are, therefore, four candidates for Governor in Maine, viz :—Isaac Reed, Whig; Anson P. Morrill, Maine law, anti-Nebraska, and Free Soil; Shepard Cary, anti-Maine law; and Albion K. Parris, who has no platform to stand on, but will be supported by the Administration Democracy and the fragment which remains of the original Democratic party. The election takes place in September. There will probably be no choice by the people, and the Legislature will choose either Mr. Reed or Mr. Morrill.

CUBA.—The Washington, *Union* has re-opened the Cuban question. In an article on Saturday, it says it entertains that the Administration are carrying on negotiations for the purchase of the Island, and that if these are unsuccessful, *war must be resorted to.*

☞Dr. OLDS, the leading Nebraskaite in the House, from Ohio, has been defeated for re-nomination by the District Convention of his own party, and an anti-Nebraskaite nominated over him.

FOOLISH.—Last Monday week Forney, Mr. Marsh, and Miss Sampson, of Massachusetts, loaded themselves together, and jumped into the mill pond at Abbington; and were drowned.

☞Rev. Henry Ward Beecher is speaken of for Congress in one of the "rural" districts of New York.

☞The New York "Hards" have nominated Judge BRONSON (ex-Collector) for Governor, and condemned the National Administration. Poor Pierce!

☞Senator Douglas owns a plantation on the Pearl river, with 140 adult Slaves on it. Senator Douglas gave a grand barbecue in honor of the Nebraska triumph.

INDEPENDENCE OF CANADA.—The inquiry was recently made in the British House of Lords, by the Earl of Ellenborough, what was the use, and what the practical advantage of the mother country continuing her connection with the American colonies? Such connection, he said, might be of some small use in the time of peace, but, on the other hand, it was greatly calculated to increase the chances of collision with the United States. It was, therefore, a matter that deserved the most serious consideration whether the British Government should not endeavor, in the most friendly manner, to divest themselves of a connection which must prove vaguely onerous to both parties. He hoped, therefore, that as early as any period, the Government would communicate with the leading persons in the Legislative Assemblies of the North American colonies with the view of ascertaining their opinion on the subject of a separation. Lord Brougham coincided in these views. It is not impossible, therefore, that the time may come out of the suggestion, especially as independence can scarcely fail to be popular with the Canadians, when the fact is, the 'manifest destiny' of the Canadians is their annexation to the United States.

IMPORTANT FROM MEXICO.—Advices have been received from Acapulco to June 15th. The blockade of that port has been raised, and the revolutionists still have possession of the city.

The state of Yucatan has declared in favor of the Plan of Ayutla, and several other places, some of them important, followed its native tribes, had done the same. Similar declarations in favor of the movement had been made in Culiacan, Tuxpan and northern cities. Troops, sent by Santa Anna to the scene of action, had joined the rebels, and the revolutionary forces at Canti. Santa Anna is said to have quarreled with his ministers soon after arriving at the city of Mexico, in consequence of their having examined a document denigrating his successful election and his right to the presidency. Even the city of Mexico is said to have revolted.

The whole part of the neighborhood of Ajachitan had joined the Liberating Army, and the state of Michoacan had declared for the movement. The troops occupying the Cuerto del Limon, had under his command over 3,000 men, well armed.—Several bloody conflicts had been encountered with the troops of Santa Anna.

The 30 Americans who were some time ago reported as missing, and in charge of the negro fillibusters, have been released through the exertions of Captain Dornin, of the U. S. ship Pennsylvania, and nearly all sent to Sanfrancisco in the cutter Wm. L. Marcy. It is supposed they would all have been shot had it not been for Captain Dornin.

FATAL ACCIDENT IN A HAT FIELD.—On Wednesday of last week, while a party of men were mowing in one of Jacob Lichtenwalner's fields, near Fogelville, Lehigh county, two of them commenced a trial of speed with the scythe. They had proceeded but a few rods when one of the men fell dead across the path of the other. He was of the age—was cut on the leg by the scythe of his companion, and died in four hours, from loss of blood.—

THE FILLIBUSTERS AT NEW ORLEANS.—Judge Campbell, of the U. S. Court at New Orleans, charged Generals Quitman, John S. Thrasher, and A. L. Saunders, supposed to be engaged in an expedition against Cuba, on the subject of neutrality. He observe the laws of the United States for the peace of nine months; they refused to comply with the order of the court and they were directed to be sent to jail, when they tendered, under protest, the bail required.

UNCONSTITUTIONAL.—Chief Justice Corwin, of Ohio, has decided that the license law passed by the last Legislature of that State is unconstitutional! Under this decision, several persons confined in the Champaign county jail, for violating provisions of said law, were released from confinement.

Senator Douglas' House, in the neighborhood of the Capitol, was struck by lightning in half a dozen places during a storm last week. The fluid was kept under from several of the rooms, nine of which it entered, broke sundry windows, chandeliers, and did a good deal of other mischief.

CRYSTAL PALACE.—*The Close of the Exhibition.*—Mr. P. T. Barnum has resigned the Presidency in the Crystal Palace, on the ground that over exertion at this season is affecting his health.

The resignation was accepted by the Directors, and John H. White, Esq., was unanimously elected President *pro tem.*—A committee was appointed to obtain the services of a Superintendent for the season, and it was resolved to finally close the exhibition on the 31st October next. It was further resolved to appoint a committee, with power to dispose of the Crystal Palace and all other property of the Association, on or after the 1st day of November next.
