TO THE LADIES OF GETTYSBURG.

The Patent Self-Heating OTARY SMOOTHING IRON.

HOUSEKEEPERS, Ladies that are board-ing, Tailors, and Dressmakers; indeed all who have occasion to use a FLAT IRON, are interested in this new and useful invention, possessing advantages over the old iron, and two smoothing surfaces, very highly finished, which revolve on an axis, and are heated by an alcohol lamp attached to the handle, which is supplied with an incombustible wick; or those who have gas in their houses may avail themselves of a very ingenious arrangement by which the same iron is converted into a GAS IRON, and is heated at a more nominal expense, by an elastic tube which is attached to any gas fixture. In no warm season now at hand, they must become an indispensable article in the domestic economy. Country Merchants could not supply themselves with an article of more ready sale, nor more acceptable to their customers. Individuals may also obtain it by addressing J. WILCOX, Manufacturing Depot, No. 273 Chestnut St., Philadelphia, and the Iron will be safely forwarded per Express or otherwise. SPALDING'S SELF-SEALING CANS for Sale. June 15, 1855.—3t.
