McCrackens Invaluable Remedy FOR THE RESTORATION & PRESERVATION

OF THE HUMAN HAIR. A FTER many years of laborious research and experiment, I have the gratification to announce to those of the public who may be afflicted with baldness or premature grey hair, that I have succeeded in the preparation of an son, as has ever been offered to the public in article that is an infallible remedy for either of these disorders. For a considerable length of time I have been in the habit of using it up-on my own customers, and in no instance has it failed to render the most entire satisfaction. Having long entertuined the belief that, in a vast imajority of cases. Baldness and premature greyness were induced by disease, or want of vigor and vitality of the scalp, rather than being the necessary consequence of mere ne

cumulation of years.

My whole attention was directed to the disovery of some preparation, which, by removing the dandruff and other foreign matter which, in spite of the utmest precaution, will collect upon the calp, would restore to this part all its vigor and vitality, and thus remove the great cause of both these diseases. In offering this preparation to the public, I have full confidence that it will not be the control of the collection of the c Pants,
