Going up and Coming Down.

BY MARY PRANCIS TYLER TUCKER. This is a simple song, 'tis true, My songs are never over nice; nd yet Illtry and scatter through, A little pinch of good advice. Then listen, pompous friend, and learn, Never to boast of much renown; For fortune's wheel is on the turn,

And some go up, and some come down I know a vast amount of stocks A vast amount of pride insures; But Fate has picked so many locks, I wouldn't like to warrant yours. Bemember, then, and never sourn
The one whose hand is hard and brown; For he is likely to go up,

And you are likely to come down.

Another thing you will agree, (The truth may be as well confessed.) That "Codish Aristocracy"

Is but a scaly thing at best.

And though the fishes, large and strong,
May seek the little ones to drown,
Yet fishes all, both great and small;

Are going up and coming down. Our lives are full of chance and change, And chance, you know, is never sure ; And 'twere a doctrine new and strange, That places high are most secure.

And though the fickle god may smile,
And yield the sceptre and the crown;

'Tis only for a little while,
Then B goes up, and A comes down.

This world for you and me, my friend, Hathsomething more than pounds and per Then let me humbly recommend A little use of common sense. Thus lay all pride of place aside And have a care on whom you frown; For fear you'll see him going up, When you are only coming down.

A Home Picture,

One autumn night when the wind was high, And the rain fell in heavy splashes, A little boy sat by the chimney fire, A' popping corn in the ashes; And his sister, a curly-haired child of three, Sat looking on just close to his knee. The blast went howling round the house, As if to get in 'twus trying; It rattled the latch at the outer door, Then seemed it a baby crying !
Now and then a drop down the chimney came,
and sputtered and hissed in the bright red flame.

Fop, pop the kernals, one by one,
Came out of the embers flying.
The boy held a long pine stick in his hand,
And kept it busily plying;
He stired the corn and it popped the more,
And faster jumped to the clean swept floor. A part of the kernals hopped one way, And a part hopped out the other; Some flew plump into the sister's lap,

The little girl gathered them into a heap, And called them a flock of milk-white sheep. All at once the boy sat still as a mouse, And into the fire kept gazing : yood was blazing For he looked where the wood was blazing He looked and he fancied that he could see A house, and a barn, a bird and tree.

Still steady gazed the boy at these,
And pussy's grey back kept stroking,
Till his sister cried, "Why, bub,
Ouly see how the corn is smoking!"
And sure enough, when the boy looked back. The corn in the ashes was burned quite black "Never mind," said he, "we shall have enough So now let's sit back and cat it;
I'll carry the stools, and you the corn;

She took up the corn in her pinafore, And they are it all, nor wished for more. The Wherewithal,

A man may have wisdom and worth, And humor and wit at his call, But what do these matter on earth, If he has not the wherewithat? His home may be circled with friends, If he only can keep up the ball; But friendship soon changes and ends If he has not the wherewithal. Then seek for the wherewithal, Make sure of the wherewithal, For pleasure, like friendship, soon ends, The purse is the dial whose face
