#### THE SALAMANDER SAFES OF PHILADEL PHIA AGAINST THE WORLD !

E VANS & WATSON, No. 26 South Fourth street, Philadelphia, have had the surest demonstration in the following certificates that their manufacture of Salamander Safes has at length fully warranted the representa-tions which have been made of them, as ren-dering an undoubted security against the terrific element :

PHILADELPHIA, April 12, 1856. MESSES. EVANS & WATSON :---Gents---It af ords us the highest satisfaction to state to you that owing to the very protective qualities o two of the Salamander Safes which we pur chased of you some months since, we saved a large portion of our jewelry, books, papers, &c., exposed to the calamitous fire in Ranstead Place, on the morning of the 11th

instant. When we reflect that these Safes were located in the fourth story of the building we occu-pied, and that they fell subsequently into a ap of burning ruins, where the vast concentration of heat caused the brass plates to melt, e cannot but regard the preservation of the

we cannot out regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes. We shall take much pleasure in recom-mending them to men of business as a sure reliance against the fire.

GEO. W. SIMONS & BRO.

Having fallen from the fifth story of the Ar-tisan building, where they were previously placed, and exposed to a vast heat for a long time, the preservation of the valuable deposits seemed to every one who witnessed the open-ing and interior examination, a matter of pro-

found astonishment. Toall who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consid-er they have now undergone the most trying test. N. E. MORGAN.

N. L. MURINARA PHILADELPHIA, April 12, 1856. MESSES EVANS & WATSON :-- Gentlemen-No doubt you will be deeply gratified to learn the good condition in which I discovered my

book policy of insurance, certificates of stock, and other valuable documents, when on Fri-day last I opened the Safe made by your TO THOSE WHO WISH FARMS

firm. With my knowledge of its great exposure both to the intensity of the heat from so hot a fire, as that which destroyed the Artisan build-ing, as also from the force of the fall from its ing, as also from the force of the fail from us former elevated position in the third story, I could entertain but alender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I seel it only due to say to you, that I can henceforth recommend the use of your Safes to all who may wish to feel a confidence
