THE SALAMANDER SAFES OF PHILADEL-

PHIA AGAINST THE WORLD ! EVANS & WATSON, No. 26 South Fourth street, Philadelphia, have had the surest demonstration in the following certificates that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as ren-dering an undoubted security against the ter-

rific element: PHILADREPHIA, April 12, 1856.
MESSES. EVANS & WATSON: -Gents-It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some months since, we saved a large portion of our jowelry, hooks, papers, &c., exposed to the calamitous fire in Ranteed Place. stead Place, on the morning of the 11th

When we reflect that these Safes were local then we reject that these sales were tocated in the fourth story of the building we occupied, and that they fell subsequently into a then of burning ruins, where the vast concentration of heat caused the brass plates to me we cannot but regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure re-

liance against the fire.
GEO. W. SIMONS & BRO. PHILADELPHIA, April 12, 1856. MESSES. EVANS & WATSON:—I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrous con-fingration in Ranstead Place, from the fact that the same were contained in two of the Sal-amander Sales manufactured by you. Having fallen from the fifth story of the Artisan building, where they were previously placed, and exposed to a vast heat for a long time, the preservation of the valuable deposits seemed to every one who witnessed the open-ing and interior examination, a matter of pro-

found astonishment. To all who may require a perfect protection from the ravages of fire, I shall not besitate to from the ravages of fire, I shall not besitate to tors for cooling and preserving meats, butter recommend the use of your Safes, as I consider milk, water and all articles for culinary purpo er they have now undergone the most trying test. N. E. MORGAN.

PHILADELPHIA, April 12, 1856. MESSRS EVANS & WATSON : -- Gentlemen-No doubt you will be deeply gratified to learn the good condition in which I discovered my policy of insurance, certificates of stock and other valuable documents, when on Friday last I opened the Safe made by your

firm.
With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire, as that which destroyed the Artisan build-ing, as also from the force of the fall from its former elevated position in the third story, I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I feel it only due to say to you, that can henceforth recommend the use of you Safes to all who may wish to feel a confidence in the perfect security which such means pro rides against so frightful an element.
