FIRE PROOF!
THE SALAMANDER SAFES OF PHILADELPHIA AGAINST THE WORLD!
EVANS & WATSON, No. 26 South Fourth street, Philadelphia, have had the surest demonstration in the following certificates that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as rendering an undoubted security against the terrific element.
PHILADELPHIA, April 12, 1856.
Messrs. EVANS & WATSON—Gentle—In answer to the highest satisfaction to state to you, that the Salamander Safes which we manufactured for you, and which you have placed in charge of some months since, we saved a large portion of our jewelry, books, papers, &c., exposed to the calamitous fire in 11th instant.
When we reflect that these Safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of burning ruins, where the vast concentration of heat caused the brass plates to melt, and that yet the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes.
We still take much pleasure in recommending them to men of business as a sure reliance against the fire.
ED. W. SIMONS & BRO. PHILADELPHIA, April 12, 1856.
Messrs. EVANS & WATSON—Gentle—I have to offer you my testimony in favor of the great security afforded by your Salamander Safes, which were placed in charge of some months since, we saved a large portion of our jewelry, books, papers, &c., during the recent disastrous conflagration in Hanover street, from the fact that the same were preserved in the Salamander Safes manufactured by you.
Having fallen from the fifth story of the Artisan building, where they were previously placed, and exposed to a vast heat for a long time, the preservation of the valuable contents to every one who witnessed the opening and interior examination, a matter of profound astonishment.
To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consider they have now received the most trying test.
N. E. MORGAN, PHILADELPHIA, April 12, 1856.
Messrs. EVANS & WATSON—Gentlemen—No doubt you will be deeply gratified to learn the good condition in which I discovered my book, policy of insurance, certificates of stock, and other papers, which were on Friday last I opened the Safes made by your firm.
With my knowledge of its great exposure both to the intensity of the heat from so hot a fire, as that which destroyed the Artisan building, as well as from the force of the falling from its former elevated position in the fifth story, I could not but be deeply gratified to find in the interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these papers are now happily removed, I feel it only due to you, that I can henceforth recommend them to my friends, and to all who may wish to feel a confidence in the perfect security which such means provide against so frightful an element.

A MARYFLOS REMEDY FOR A MARVELOUS AGE
HOLLOWAY'S OINTMENT.
THE GRAND EXTERNAL REMEDY.
BY the aid of a microscope, we see millions of little openings on the surface of our bodies, through these openings, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidney, disorders of the Liver, affections of the heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured—Every housewife knows that only passes freely through one or more of its thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.
ERYSIPELAS, SALT RHEUM AND SCORBUTIC HUMORS.
No remedy has ever done so much for the cure of diseases of the Skin whatever form they may assume as this Ointment. No case of Salt Rheum, Scarcy, Sore Heads, Scrofula or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and thus been the means of restoring countless numbers to health.
