**HERRING'S SAFE** AGAIN. THE CHAMPION!! The only Safe which in every instance preserves its entire contents in the late extensive fire.

At the burning of the Artizan Buildings on April 10th, and in the GREAT FIRE in Market Street, May 4th, 1856, the genuine HERRING'S SAFE preserved the jewelry of Geo. W. Simons & Bro., Books, Papers, &c., of Fisher & Bro., and Edward Semans & Co., after remaining exposed to the burning ruins for nearly FORTY HOURS, and proving conclusively what we have said for years, that their great superiority over all securities now known. In these fires, the HERRING'S SAFE, standing side by side with those advertised as "unburned," and 10 per cent. more fire than HERRING'S, came forth the acknowledged victor, not only preserving its contents in excellent order, but being themselves in a condition to go through another ordeal, while the boasted "unburned" of other makers were hoisted up in every instance, and in all cases their entire contents completely destroyed. To the public we would simply say, that during the 14 years that Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss. We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and will guarantee it to resist more than double the amount of heat of any other Safe now known.

**FARRELS & HERRING,** Sole Manufacturers in this State of "HERRING'S PATENT CHAMPION SAFES," "N. B. Evans & Watson's Improved Salamanders," "Oliver Evans's," "C. J. Gayler's," and "Scott's Abestos," Iron Chests, (a large assortment having been taken in part payment for Herring's) will be sold at low prices. June 13, 1856.—ly

**TONICS WON'T DO IT!** They never did more than give temporary relief and they never will. It is because they don't touch the CAUSE of the disease. The CAUSE of allague and bilious diseases of the atmosphere is called Malaria. It is a NATURAL ANTIDOTE and all diseases caused by it disappear at once. Rhubarb, Eucalyptus and Ague Cure is this Antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. M. Gillon, New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm. This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, never allowing a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

Georgetown, Ohio, March 17, 1856. JAS. A. RHODES, Esq.—Sir: Yours of the 24th inst. is at hand. The cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, and being better than Quinine, not knowing I presume that the remedy they used to escape taking Quinine, contained the DRUG ITSELF!

This remedy (known as "Smith's Tonic") would invariably BREAK an Ague, but did not CURE it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took your "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases) slowly returning, and the only foundation of other and more severe malarial diseases. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period of two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c. &c. W. BUCKNER, M. D. Rhode's Fever and Ague Cure, or Antidote to Malaria, is equally certain as a preventive, as a "Cure." Take it when you feel the chills coming on, and you will never have a single one.

**FIRE PROOFS!**

THE SALAMANDER SAFES OF PHILADELPHIA AGAINST THE WORLD! EVANS & WATSON, No. 26 South Fourth street, Philadelphia, have had the surest demonstration in the following certificates that their manufacture of Salamander Safes has at length fully warranted the representation, which have been made of them, as rendering an adequate security against the terrific element.

PHILADELPHIA, April 12, 1856. Messrs. EVANS & WATSON.—Gents:—It affords us the highest satisfaction to state to you that owing to the very protective qualities of the Salamander Safes which we purchased of you some time since, we saved a large portion of our jewelry, books, papers, &c., exposed to the calamitous fire in Ransel Place, on the morning of the 11th instant.

We have to reflect that these Safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of burning ruins, where the vast concentration of heat caused the brass plates to melt, and the valuable contents were preserved in perfect safety, and the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance against the fire.

PHILADELPHIA, April 12, 1856. Messrs. EVANS & WATSON.—I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrous conflagration in Ransel Place, from the fact that the same were contained in two of the Salamander Safes manufactured by you.

Having fallen from the fifth story of the Artisan building, where they were previously placed, and exposed to a vast heat for a long time, the contents were perfectly preserved, and seemed to every one who witnessed the opening and interior examination, a matter of profound astonishment.

To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the Salamander Safes, as I consider they have now undergone the most trying test.

PHILADELPHIA, April 12, 1856. Messrs. EVANS & WATSON.—Gentlemen:—No doubt you will be deeply gratified to learn the good condition in which I discovered my books, papers, and other valuable contents of stock, and the preservation of the same, when on Friday last I opened the Safe made by you.

With my knowledge of its great exposure to the intensity of the heat from so hot a fire, as that which destroyed the Artisan building, as also from the force of the fall from its former elevated position in the third story, I could entertain but slender hopes prior to its opening, in respect to the contents which I once so highly prized, and which were now happily removed, I feel it only due to say to you, that I can henceforth recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means provides against all accidents of the kind.
