FIRE PROOF! THE SALAMANDER SAFES OF PHILADELPHIA AGAINST THE WORLD!

EVANS' PATENT, No. 26 South Fourth street, Philadelphia, have had the greatest demonstration in the following certificate: that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as resisting an undoubted security against the terrific element of fire.

PHILADELPHIA, April 12, 1855. MESSRS. EVANS & WATSON—Gentles—In reply to your letter of the 11th inst., I beg to inform you that owing to the very protective qualities of the Salamander Safes which we manufacture, a large portion of our safes, which we have exposed to the calamitous fire, at the Pennsylvania Fair, on the morning of the 11th inst.

When we reflect that these Safes were located in the fourth story of the building, and that they fell completely into a heap of burning ruins, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of the great security afforded by your Safes.

We shall take much pleasure in recommending them to men of business as a sure reliance against the fire.

GEORGE W. SIMONS & BRO., PHILADELPHIA, April 12, 1855. MESSRS. EVANS & WATSON—I have to offer you my testimony in favor of the great security afforded by your Safes, which we have exposed to the calamitous fire, at the Pennsylvania Fair, on the morning of the 11th inst.

Having fallen from the fifth story of the Artizan building, where they were previously placed, and exposed to a vast heat for a long time, the preservation of the valuable deposits contained therein, and the interior equipment, a matter of profound astonishment.

To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consider they have now undergone the most trying test.

PHILADELPHIA, April 12, 1855. MESSRS. EVANS & WATSON—Gentles—No doubt you will be deeply gratified to learn of the good condition in which I discovered my books and other valuable articles, when on Friday last I opened the Safe made by your firm.

With my knowledge of its great exposure to the intensity of the heat from so hot a fire, as also from the destruction of the Artizan building, as also from the fact that all from its former elevated position in the third story, I could entertain but slender hopes prior to its interior inspection, that the contents which I so highly prize would ever be of any service to me, as these fears are now happily removed, I feel it only due to you, that I can benevolently recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means provides against so frightful an element.

used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that during the 14 years that Herring's Safes have been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, caution purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other Safe now known.
