## FIRE PROOFS!

THE SALAMANDER SAFES OF PHILADEL PHIA AGAINST THE WORLD!

EVANS & WATSON, No. 26 South Fourth street, Philadelphia, have had the surest demonstration in the following certificates that their manufacture of Salamander Safes has at length fully warranted the representa-tions which have been made of them, as ren-dering an undoubted security against the ter-rific element;

PHILADELPHIA, April 12, 1856. MESSES. EVANS & WATSON :- Genta-It afthat owing to the very protective qualities o, two of the Salamander Safes which we purchased of you some months since, we saved a large portion of our jewelry, hooks, papers, &c., exposed to the calamitous fire in itanstead Place, on the morning of the 11th

When we reflect that these Safes were located in the fourth story of the building we occu-pied, and that they fell subsequently into a heap of burning ruins, where the vast concertration of heat caused the brass plates to me we cannot but regard the preservation of the valuable contents as most convincing proof the great security afforded by your Safes.

We shall take much pleasure in recom

mending them to men of business as a sure re liance against the fire.

GEO. W. SIMONS & BRO.

PHILADELPHIA, April 12, 1856. MESSRE EVANS & WATSON:—I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrous con-diagration in Ranstead Place, from the fact that the same were contained in two of the Salamander Safes manufactured by you.

Having fallen from the fifth story of the Ar

tisan building, where they were previously placed, and exposed to a vast heat for a long time, the preservation of the valuable deposits seemed to every one who witnessed the open ing and interior examination, a matter of pro

ng and interior examination, ound astonishment.

To all who may require a perfect protection rom the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consider they have now undergone the most trying N. E. MORGAN.

PHILADELPHIA, April 12, 1856. Messas Evans & Watson :-- Gentlemen-No doubt you will be deeply gratified to learn the good condition in which I discovered my hook, policy of insurance, certificates of stock. book, policy of insurance, certificates of stock, and other valuable documents, when on Friday last I opened the Safe made by your

With my knowledge of its great exposure both to the intensity of the heat from so hot a fire, as that which destroyed the Artisan build-ing, as also from the force of the fall from its former elevated position in the third story, I could entertain but alender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any ser-vice to me, but as these fears are now happily removed, I feel it only due to say to you, that I can henceforth recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means pro

vides against so frightfu an element. EDWARD GASKILL, Bookbinder. Constantly on hand Patent Powder and Thief Proof Locks for Banks, Stores, &c. April 25, 1856,-1v
