FIRE PROOFS!

THE SALAMANDER SAVES OF PHILADEL

has at length fully warranted the representa-tions which have been made of them, as rendering an undoubted security against the terrific element:

PHILADELPHIA, April 12, 1856. MESSRS. EVANS & WATSON.—Gents—It infords us the highest satisfaction to state to you that owing to the very protective qualities o, two of the Salamander Safes which we pur-Utensils, Waffle Irons, Washing Machines, chased of you some months since, we saved a large portion of our jewelry, books, papers, &c., exposed to the calamitous fire in Ranstend Place, on the morning of the 11th

When we reflect thist these Safes were loca ted in the fourth story of the building we occu-pied, and that they fell subsequently into a heap of burning ruins, where the vast concen-tration of heat caused the brass plates to me. we cannot but regard the preservation of the valuable contents as most convincing proof o the great security afforded by your Safes. We shall take much pleasure in recommending them to men of business as a sure reliance against the fire.

GEO. W. SIMONS & BRO.

PHILADELPI JA, April 12, 1856. MESSES. EVANS & WAT SON: -1 have to offer MESSIS. EVANS & WATSON:—1 nave to oner you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrous confingration in Ranstead Place, from the fact that the same were contained in two of the Sal-

that the same were contained in two of the Salamander Safes manufactured by you.

Having fallen from the fifth story of the Artisan building, where they were previously placed, and exposed to a vast heat for a long time, the preservation of the valuable deposits seemed to every one she witnessed the onen seemed to every one who witnessed the open ing and interior examination, a matter of pro

found astonishment. To all who may require a perfect protection rom the ravages of fire, I shall not besitute to recommend the use of your Safes, as I consider they have now undergone the most trying test.

N. E. MORGAN.

PHILADELPHIA, April 12, 1856. Messas Evansé Warson: -- dentlemen-No doubt you will be deeply gratified to learn the good condition in which I discovered my the good condition in which I discovered my hook, policy of insurance, certificates of stock, and other valuable documents, when on Fri-day last I opened the Safe made by your

firm.
With my knowledge of its great exposure both to the intensity of the heat from so hot a fire, as that which destroyed the Artisan build-ing, as also from the force of the fall from its former elevated position in the third story, I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I fael it only due to say to you, that I can henceforth recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means proides against so frightful an element.

their great superiority over all securities now known. In these fires, the HERRING'S SAFE, standing side by side with those advertised as warranted to stand 10 per cent. more fire than Herrings, came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while the boaster Salamanders" of other makers were badly used up in every instance, and in some cass their entire contents completely destroyed.

To the public we would simply say, the 14 years that Herring's Safe has

been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss. We would, therefore, caution purchasers against the misrepresentation of interested par ties. ILYER COMPLAINT, JAUNDICE, and all Bilious Affections, arise from some deratgement—either topidity, congestion, or obstructions of the Liver. Torpidity and congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflaw into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhera, prevails. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the whole system irritable, with a tendency to fever, which may turn to bilous fever, bilious colie, bilious diarrhera, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these-troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RIBEUMATIEM, GOUT, and all Inflammatory Ferers, are rapidly cared by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principal of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the parpose for which a dinner pill is employed.
