LIVER COMPLAINT, JAUNDICS, and all Bilious Affections, arise from some derangement—either torpility; congestion, or obstructions of the Liver. Torpidity and congestion vitate the bile and render it unfit for digestion. This is disastrous to the health, and the constitution is frequently undermined by no other cause. Indigestion is the symptom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundics, with a long and dangehous train of ovils. Coativeness, eralternately costiveness and diarrhem, prevails. Feverish symptoms, languor, low spirits, weariness, reatlessness, and melancholy, with sometimes in-ability to sleep, and sometimes great drowsiness; sometimes there is severe pain in the side; the skin and the white of the eyes become a greenish yellow; the stomach acid; the bowels sore to the touch; the stomach acid; the bowels sore to the touch; the stomach acid; the bowels sore to the touch; the stomach acid; the bowels sore to the touch; the hole system irritable, with a tendency to ferer, which may turn to bilious fever, bilious coile, bilious diarrhem, dysentery, &c.
