EVANS& WATSON

PHILADELPHIA. MANUFACTURED

SALAMANDER SAFES No. 26 S. LOURTH Sty Philada,

TBUTH 'IS MIGHTY, AND MUST PREVAIL. Report of the Committee appointed to superin-tended the Burning of the Iron Safes at

Reading, February, 27, 1857. ... / Stat READING, March 4. The undersigned, members of the commit The indersigned, members of the commit-tee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safa in uso by the Paymaster of the Philadelphin and Read-nor Railcoad Commany in his office a Read-

ing Railroad Company, in his office at Read, ing, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, mainfactured by Evans & Watson, and put in

woks and papers precisely alike. The fire was started at 81 o'clock, Al M. and kept up until four cords of green hickory, two cords dry oak and half cheanut top wood were entirely consumed, the whole under the

superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were open ed, and the books and papers taken out by the Committee and sent to il. A. Lantz's store for public examination, after they were first ex-amined and marked by the Committee. The

books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring were, in our judgment, damaged fully fifteen per cent more than those taken from

Evans & Watson's Sufe. We believe the above to have been a fair and mijiartial trial of the respective qualities of both Sates. JACOB H. DYSHER, DANIEL S. HUNTER.

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.
