

FIRE-SMOKE CLOTHING

We Begin Our Second Week of Sale With Extraordinary Values At Less Than Half On Our

NEW STOCK IN A NEW STORE

THE response to our unusual bargain offerings has exceeded our expectations. Scores of people were obliged to leave the first day as we were unable to wait on them. Hundreds have gone home with suits, coats and furs purchased for half and less than half of what these garments could be purchased for ordinarily. But we have three floors and a basement filled with bargains just as good for the coming week. If we had room to stretch a clothes line for a mile or more, the wind would soon take the smoke-fumes out of the garments. But you furnish the clothes line and we'll fill it with latest style clothing for one half-price and less. Remember that this stock is NOT damaged by water or fire, only slightly fumed by the smoke from fire next door.

Pennsylvania Co. Grants Privilege That Will Please Mt. Gretna Cottagers and Travelers

Special to The Telegraph
Lebanon, Pa., Jan. 2.—Lebanon patrons of the Cornwall and Lebanon Railroad, and Mt. Gretna cottage owners who reside at Harrisburg, Lancaster and elsewhere, will be delighted to learn that on and after February 1, Pennsylvania mileage will be good on the Cornwall and Lebanon line. The announcement today that the Pennsylvania Railroad Company has made the concession may well be considered a public New Year gift in this region, as the agitation has covered a period of probably ten years, and every pressure and influence that could be mustered to get a grant of this convenience has been utilized, but without success until now.
With the new order of things, baggage may be checked at Harrisburg and other points on Pennsylvania system will go right through on the Cornwall and Lebanon by virtue of that same checking. It is boon which the commercial travelers understand very well, and which will save them endless inconveniences and considerable expense as well.

RODERICK MOVES FOR SAFETY PLAN

Wants More Inspections and Accidents Reduced by at Least Fifty Per Cent.

Letters have been sent to the general superintendents and general managers of every coal company in the State by James E. Roderick, State Chief of Mines, urging them to take measures to reduce by 50 per cent. the number of accidents, it being apparent, he says, that additional safeguards are essential. In the same mail the chief has sent letters to the mine inspectors of the State service notifying them of the dispatch of the letter and directing them to notify the department at once if they find that suggestions for safety are not being followed out. In case of persistent violation of directions for safety the inspectors are directed to institute suits.
In his letter to the mining officers Chief Roderick says: "The most prolific causes of accidents inside the mines are falls, cars, blasts, gas, falling into shafts or slopes, suffocation and explosives. During the first eleven months of 1913 510 lives were lost inside the mines as against 463 for the first eleven months of 1912. If accidents inside the mines are to be reduced, and they should be reduced by one-half, special care and attention must be given to the causes enumerated. In all mines, but especially in mines where the pitch of the seam is less than 35 degrees, accidents from falls must be given the greatest consideration."
The letter contains numerous suggestions for reduction of the number of accidents from each cause.
The mine inspectors are notified that they will be held responsible by the Department of Mines for any neglect on their part to enforce compliance with their instructions given.

To Establish Banks For Aid of Small Borrowers

By Associated Press
New York, Jan. 2.—Confirmation of reports from Berlin that "Julius" Rotenlof, of Chicago, who is at present investigating European banking systems for financing men of small means, would soon establish in this country a chain of banks in an effort to aid small borrowers who are unable to obtain loans from ordinary financial institutions, was given here last night by Dr. Edwin R. L. Gould.
Mr. Rosenwald is co-operating with Andrew Carnegie and Vincent Astor and others, Dr. Gould said. It is probable that Dr. Gould will be head of the system of banks, the first of which is to be established in Chicago with a capital of several hundred thousand dollars.

Exclusion of Plumage Puts Crimp in Feather Markets of Europe

By Associated Press
New York, Jan. 2.—European feather markets have been demoralized by the exclusion of wild bird plumage from this country, according to W. T. Hornaday, director of the New York Zoological Park, who has taken a leading part in the fight to preserve wild bird life.
Within ten days after the adoption of the tariff bill containing the feather exclusion provision, Mr. Hornaday said the London feather market suffered a slump. He added that 368 or 1,174 lots of plumage offered on the market were withdrawn.

COAL BARGEMEN TO STRIKE

By Associated Press
New York, Jan. 2.—A general strike of coal bargemen, it was announced yesterday following a meeting of the Bargemen's Union, would begin today. The coal bargemen demand an increase in wages from \$50 to \$60 a month. It is estimated that a general strike of the coal bargemen would tie up 3,500 coal barges and cut off the supply of the electric light and street railway powerhouses and other companies which handle barge coal.

DON'T TRUST CALOMEL

Thousands Experience Bad After Effects From This Dangerous Drug

A Safe Vegetable Substitute is Dr. Edwards' Olive Tablets for the Liver.

Dr. F. M. Edwards, a prominent physician of Ohio, has discovered a laxative and liver tonic in a combination of vegetable materials mixed with olive oil, which is in effect almost exactly like calomel, except that there are none of the bad after effects.
Dr. Edwards has long been a foe of calomel, though he recognized its value along with its dangers.
His distrust of the uncertain drug eventually started him, years ago, towards experiments with the view of discovering a substitute, and he has been the means of relief to many of the long-sought-for combination, which is in the shape of a little sugar-coated, olive-colored tablet.
The results of 17 years' experience and practice are embodied in these marvelous little tablets.
They are called Dr. Edwards' Olive Tablets. And their effect on the liver has been the means of relief to many of Dr. Edwards' regular patients as well as to thousands of others who have suffered and were afraid of calomel.
There is no necessity, when you take Dr. Edwards' Olive Tablets, by following them up with nasty, sickening, gripping salts, or castor oil, as you do after taking calomel. Try them. 10c and 25c per box. The Olive Tablet Company, Columbus, O. At all druggists.—Advertisement.
