Track Foreman Urged to Watch Men Who Wear Them to **Prevent Deaths** 

Because of frequent accidents oc-curring to track laborers who wear ear mufflers during exceedingly cold weather, S. C. Long, general manager of the Pennsylvania Railroad Com-pany, this morning issued a warning to foremen that particular attention must be paid to the men who wear such mufflers. The notice is as fol-lows:

such muffiers. The notice is as follows:

"Three track laborers were struck and killed by an extra freight on December 26 on one of our divisions at a crossover while they were engaged in cleaning snow from switches. All of these men wore caps with muffiers to protect their ears.

"The wearing of ear muffiers by trackmen renders their hearing less acute while being worn, and while it is not desirable to prohibit the practice of wearing muffiers, foremen should be warned to pay particular attention to the men who wear them in regard to warning the men of approaching trains. All foremen should be advised of this at once, in anticipation of the severe weather during the next two or three months."

Miyazaki, Japan, Jan. 14.—A party of refugees from the stricken Island of Sakura, in the Gulf of Kagoshima, arrived here to-day. They reported that the inhabitants of 300 houses, composing the village of Seto on that island, lost their way in trying to reach the seashore and probably all përished together. The refugees declare that hundreds were drowned in trying to swim across the Gulf of Kagoshima. They add that the volcano of Sakura-Jima has completely changed its form, several new craters having opened.
