WORK for a raise. How? Learn something the other fellow doesn't know. Go ahead. It's a cinch that you'll get a raise if you gain knowledge that has an actual cash value—you'll COMMAND more cash because you are WORTH MORE than one that lags behind. Whatever position you now hold you must keep up with the times if you would ADVANCE. Better still, you should keep AHEAD of the procession. The latest and greatest NEW knowledge concerns the Panama Canal. To know about this modern wonder is to have something "up your sleeve" that will add to your "market value."
